Patient Information Policy

Use or Disclosure of Protected Health Information to Persons Involved in the Patient’s Care and for Notification Purposes

1.1 If the individual is present and has the capacity to make his or her own decisions, LSUHSC-NO may disclose the PHI to a family member, other relative, or a close personal friend of the patient, or for notification purposes only if LSUHSC-NO does one of the following:

• Obtains the individual's agreement in each encounter, orally or in writing, to disclose the patient’s Protected Health Information to the individual (e.g., family member, friend, other person) that is present with the patient;
• Provides the individual with the opportunity to object to such disclosure, and the individual does not express an objection; or
• Reasonably infers from the circumstances, based on the exercise of professional judgment that the individual does not object to the disclosure. Examples of when an LSUHSC-NO health care provider may infer an individual’s agreement to disclose Protected Health Information pursuant to this option include, but are not limited to:
  o when a patient brings a spouse into our office when treatment is being discussed; or
  o when a colleague or friend has brought the individual to the emergency room for treatment.

1.2 LSUHSC-NO is not required to verify the identity of relatives or other individuals involved in the individual’s care. The individual’s act of involving the other persons in his or her care is sufficient verification of their identity.

1.3 LSUHSC-NO must obtain the individual’s agreement on every visit to our office as to whether the Facility or Clinic may disclose the individual’s Protected Health Information to a relative or to another person assisting in the individual’s care.

1.4 LSUHSC-NO should not assume that an individual’s agreement at one point in time to disclose Protected Health Information to a relative or friend applies to every visit to our office.

2.0 Uses and Disclosures of Protected Health Information When the Patient is Not Present Or Emergency Circumstances

2.1 LSUHSC-NO may only make limited disclosures of a patient’s Protected Health Information when the patient is not present to be provided with an opportunity to agree or object to a particular use or disclosure of their Protected Health Information.

2.2 If the individual is not present, or the opportunity to agree or object to the use or disclosure cannot practicably be provided because of the individual’s incapacity or an emergency circumstance, LSUHSC-NO may, in the exercise of professional judgment, determine whether the disclosure is in the best interests of the individual and, if so, disclose only the Protected Health Information that is directly relevant to the person’s involvement with the individual’s health care. Examples of when employees of LSUHSC-NO may use their professional judgment and experience with common practice to make reasonable inferences of the individual’s best interest in allowing a person to act on behalf of the individual include, but are not limited to:

• pick up filled prescriptions,
• medical supplies,
• X-rays, or
• other similar forms of PHI.
