

LIH Allergy, Asthma, & Immunology Clinic: (“Allergy”)
1450 Poydras Street, First Floor Phone: 504.903.1974
Fax: 504.903.1605
Nurse Manager: Patricia B Kilbert, RN

- Allergic Reaction, unknown agent/allergen (995.3)
- Allergic Rhinoconjunctivitis (477.9)
- Anaphylaxis and Anaphylactoid reactions (995.0)
- Dermatitis, atopic (691.8)
- Dermatitis, contact (692.9)
- Drug Desensitization (99.12)
- Egg Allergic patient Obtain desensitization for immunizations (99.12)
- Food Allergies (995.60)
- Hymenoptera (Bee Sting) Allergy (989.5)
- Immunodeficiency--NOT HIV related (279.9)
- Urticaria (708.9)

LIH Asthma Referrals:

- Asthma (493.90): **LIH Asthma patients may be scheduled in either Allergy or Pulmonary Clinic. For patients with asthma and allergic features consider referral to Allergy Clinic.**

For Asthma Allergy Clinic Referrals:

1450 Poydras Street, First Floor

Phone: 504.903.1974

Fax: 504.903.1605

Nurse Manager: Patricia B Kilbert, RN

For Asthma Pulmonary Referrals:

136 South Roman Street, Fourth Floor

Phone: 504.903.2373

Fax: 504.903.2149

Nurse Manager: Pat Poolson, RN

LIH Breast and Cervical Cancer Prevention (BCCP) Clinic:**1450 Poydras Street, Third Floor****Phone: 504.903.2373****Fax: 504.903.1605****Nurse Manager: Patricia B Kilbert, RN**

- Abnormal Finding on Mammogram (BiRAD 4 or 5) or Ultrasound (793.80): Obtain reports and images for any previous studies (mammogram, ultrasound, MRI) and slides and reports of any biopsies if not performed at LIHNO for this referral.
- Axillary Mass (782.2)
- Breast Abscess (611.0)
- Breast and Cervical Cancer Screening (V76)
- Breast Biopsy: Atypical Ductal Hyperplasia (610.1): Obtain reports and images for any previous studies (mammogram, ultrasound, MRI) and slides and reports of any biopsies if not performed at LIHNO for this referral.
- Breast Biopsy: Ductal Carcinoma In Situ (233.0): Obtain reports and images for any previous studies (mammogram, ultrasound, MRI) and slides and reports of any biopsies if not performed at LIHNO for this referral.
- Breast Biopsy: Lobular Carcinoma In Situ (233.0): Obtain reports and images for any previous studies (mammogram, ultrasound, MRI) and slides and reports of any biopsies if not performed at LIHNO for this referral.
- Breast Cancer (174.9): Obtain reports and images for any previous studies (mammogram, ultrasound, MRI) and slides and reports of any biopsies if not performed at LIHNO for this referral.
- Breast Cancer previously treated (V10.3): Obtain Records of Surgery/Chemo/Radiation Therapy if not performed at LIHNO for this referral.
- Breast Mass (611.72): Schedule Mammogram prior to clinic appointment
- Breast or Nipple Discharge: Bloody (611.79) Schedule Mammogram prior to clinic appointment
- Breast or Nipple Discharge: not bloody; normal Prolactin, TSH, & T4; UPT Negative (611.79)

LIH Breast and Cervical Cancer Prevention (BCCP) Clinic (continued)

- Breast Pain (611.71) (unresponsive to medical management with Anti-inflammatory drugs & Evening Primrose Oil, and with normal findings on Mammogram and Ultrasound testing)
- Family history of colon, melanoma, ovarian, pancreatic, prostate, or hereditary cancer syndromes (V16)

LIH Cardiology Clinic:

136 South Roman Street, Fourth Floor

Phone: 504.903.5607

Fax: 504.903.1605

Nurse Manager: Pat Poolson, RN

- Adult Congenital Heart Disease (746.9): Obtain EKG, CBC, CMP, & Urinalysis for this referral. Have the patient bring copies of any lab work, EKG and medical records not available at LIH.
- Arrhythmia (427.9): Obtain EKG, CBC, CMP, & Urinalysis for this referral. Have the patient bring copies of any lab work, EKG and medical records not available at LIH.
- Cardiomyopathy (425): Obtain EKG, CBC, CMP, & Urinalysis for this referral. Have the patient bring copies of any lab work, EKG and medical records not available at LIH.
- Chest Pain (786.59): Obtain EKG, CBC, CMP, & Urinalysis for this referral. Have the patient bring copies of any lab work, EKG and medical records not available at LIH.
- Claudication (440.21): Obtain EKG, CBC, CMP, & Urinalysis for this referral. Have the patient bring copies of any lab work, EKG and medical records not available at LIH.
- Coronary Artery Disease previously diagnosed or previous MI (414.0): Obtain EKG, CBC, CMP, & Urinalysis for this referral. Have the patient bring copies of any lab work, EKG and medical records not available at LIH.
- Heart Failure (428.0): Obtain EKG, CBC, CMP, & Urinalysis for this referral. Have the patient bring copies of any lab work, EKG and medical records not available at LIH.
- Hypertensive Heart Disease (402): Obtain EKG, CBC, CMP, & Urinalysis for this referral. Have the patient bring copies of any lab work, EKG and medical records not available at LIH.

LIH Cardiology (Continued)

- Palpitations (785.1): Obtain EKG, CBC, CMP, & Urinalysis for this referral. Have the patient bring copies of any lab work, EKG and medical records not available at LIH.
- Peripheral Vascular Disease (443.9): Obtain EKG, CBC, CMP, & Urinalysis for this referral. Have the patient bring copies of any lab work, EKG and medical records not available at LIH.
- Renal Artery Stenosis (440.1): Obtain EKG, CBC, CMP, & Urinalysis for this referral. Have the patient bring copies of any lab work, EKG and medical records not available at LIH.
- Syncope (780.2): Obtain EKG, CBC, CMP, & Urinalysis for this referral. Have the patient bring copies of any lab work, EKG and medical records not available at LIH.
- Valvular Heart Disease (429.9): Obtain EKG, CBC, CMP, & Urinalysis for this referral. Have the patient bring copies of any lab work, EKG and medical records not available at LIH.

LIH Cardio-Thoracic Surgery Clinic:

136 South Roman Street, Fourth Floor

Phone: 504.903.5607

Fax: 504.903.1605

Nurse Manager: Pat Poolson, RN

- Aortic/Thoracic Aneurysm (441): Obtain CT Angiogram; Cardiac Stress Test; Trans-Thoracic Echocardiogram; Pulmonary Function Test with Room Air Arterial Blood Gas
Note: All MRI & CT Scans with contrast require documentation of current BUN/ Creatinine or GFR within 30 days of the performance of the study. (Metformin/ Glucophage may be taken on the morning of the study but subsequently must be held for 48 hours & repeat renal function evaluation must be performed prior to resumption.)
- Aortic Valve Disease (424.1): Obtain Cardiac Catheterization; Trans-Thoracic Echocardiogram; Pulmonary Function Test with Room Air Arterial Blood Gas
- Atrial Septal Defect (745.5): Obtain Cardiac Catheterization if age < 45

LIH Cardio-Thoracic Surgery (continued)

- Coronary Artery Disease/CABG evaluation (414.0): Obtain Cardiac Catheterization (within 8 months); Carotid U/S; Trans-Thoracic Echocardiogram; Ankle-Brachial Index; Pulmonary Function Test with Room Air Arterial Blood Gas
- Carotid Stenosis (433.1): Obtain MRA or Carotid Angiogram **Note: All MRI & CT Scans with contrast require documentation of current BUN/ Creatinine or GFR within 30 days of the performance of the study. (Metformin/ Glucophage may be taken on the morning of the study but subsequently must be held for 48 hours & repeat renal function evaluation must be performed prior to resumption.)**
- Esophageal Cancer (150.9): Obtain CT Abd & Chest with IV contrast, Cardiac Stress Test, Pulmonary Function Test with Room Air Arterial Blood Gas **Note: All MRI & CT Scans with contrast require documentation of current BUN/ Creatinine or GFR within 30 days of the performance of the study. (Metformin/ Glucophage may be taken on the morning of the study but subsequently must be held for 48 hours & repeat renal function evaluation must be performed prior to resumption.)**
- Esophageal Stricture/Achalasia (530.3): Obtain Barium Esophagram; Esophagomanometry
- Lung Mass/Nodule (162.9): Obtain CT Scan of Chest with IV contrast, Pulmonary Function Test with Room Air Arterial Blood Gas. **Note: All MRI & CT Scans with contrast require documentation of current BUN/ Creatinine or GFR within 30 days of the performance of the study. (Metformin/ Glucophage may be taken on the morning of the study but subsequently must be held for 48 hours & repeat renal function evaluation must be performed prior to resumption.)**
- Mediastinal Mass (164.9): Obtain CT Scan of Chest with IV contrast. **Note: All MRI & CT Scans with contrast require documentation of current BUN/ Creatinine or GFR within 30 days of the performance of the study. (Metformin/ Glucophage may be taken on the morning of the study but subsequently must be held for 48 hours & repeat renal function evaluation must be performed prior to resumption.)**
- Mitral Valve Disease (394.9): Obtain Cardiac Catheterization, Trans-Thoracic Echocardiogram, Pulmonary Function Test with Room Air Arterial Blood Gas
- Pericardial Disease: (423.9): Obtain Trans-Thoracic Echocardiogram

LIH Cardio-Thoracic Surgery (continued)

- Pleural Effusion/Empyema (511.9): Obtain CT Scan of Chest with IV contrast. **Note: All MRI & CT Scans with contrast require documentation of current BUN/ Creatinine or GFR within 30 days of the performance of the study. (Metformin/ Glucophage may be taken on the morning of the study but subsequently must be held for 48 hours & repeat renal function evaluation must be performed prior to resumption.)**
- Tricuspid Disease (424.2): Obtain Trans-Thoracic Echocardiogram; Pulmonary Function Test with Room Air Arterial Blood Gas

LIH Coumadin Clinic: (Referral for Anticoagulant Therapy Management)

1450 Poydras Street, Third Floor

Phone: 504.903.2373

Fax: 504.903.1605

Clinic Director: Dr. Cassandra Youmans

Nurse Manager: Patricia B Kilbert, RN

- DVT: first episode with Transient Risk Factor: (451.9): Referral for Anticoagulant Therapy Management; Obtain current PT/INR for this referral.
- DVT: first episode (Idiopathic) (451.9): Referral for Anticoagulant Therapy Management; Obtain current PT/INR for this referral.
- DVT: first episode with Diagnosed Malignancy: (451.9): Referral for Anticoagulant Therapy Management; Obtain current PT/INR for this referral.
- DVT, Recurrent (451.9): Referral for Anticoagulant Therapy Management; Obtain current PT/INR for this referral.
- Atrial Fibrillation (427.31): Referral for Anticoagulant Therapy Management; Obtain current PT/INR for this referral.
- Hypercoagulable Condition (289.81): Referral for Anticoagulant Therapy Management; Obtain current PT/INR for this referral.
- Pulmonary Embolus (415.19): Referral for Anticoagulant Therapy Management; Obtain current PT/INR for this referral.

LIH Coumadin Clinic (continued)

- Rheumatic Mitral Valve Disease with Atrial Fibrillation or a History of Emboli (394.1; 427.31 or 415.1) Referral for Anticoagulant Therapy Management; Obtain current PT/INR for this referral.
- Rheumatic Mitral Valve with Normal Sinus Rhythm (NSR), and a Left Atrial Diameter greater than 5.5 cm (394.1): Referral for Anticoagulant Therapy Management; Obtain current PT/INR for this referral.
- Aortic St. Jude Medical Bi-leaflet valve (V43.3): Referral for Anticoagulant Therapy Management; Obtain current PT/INR for this referral.
- Aortic Carbomedics Bi-leaflet or Medtronic Hall Tilting Disk valves, no risk factors (V43.3): Referral for Anticoagulant Therapy Management; Obtain current PT/INR for this referral.
- Bio-prosthetic valve (Mitral or Aortic)(V42.2): Referral for Anticoagulant Therapy Management; Obtain current PT/INR for this referral.
- Mitral tilting disk valves and bi-leaflet mechanical valves (V43.3): Referral for Anticoagulant Therapy Management; Obtain current PT/INR for this referral.
- Mechanical valves with risk factors (Atrial Fibrillation, Myocardial Infarction, Left Atrial Enlargement, endocardial damage, Low Ejection Fraction) (V43.3): Referral for Anticoagulant Therapy Management; Obtain current PT/INR for this referral.
- Mechanical valve with breakthrough embolism despite INR 2.0-3(V43.3): Referral for Anticoagulant Therapy Management; Obtain current PT/INR for this referral.

LIH Dental Clinic:

2021 Perdido Street, 4 East

Phone: 504.903.3083

Fax: 504.903.1605

Nurse Manager: Pat Poolson, RN

- Dental Caries (521.00): This referral requires an indication of Priority (urgent or routine), the patient's functional health status (P1-P4) and co-morbid conditions.
- Dental Pre-op Clearance (V72.83): This referral requires an indication of medical/surgical procedure, indication of Priority (urgent or routine), the patient's functional health status (P1-P4) and co-morbid conditions.

LIH Dental Clinic (continued)

- Gum Disease (523.4): This referral requires an indication of Priority (urgent or routine), the patient's functional health status (P1-P4) and co-morbid conditions.

Phone: 504.903.5607

Fax: 504.903.0210

Nurse Manager: Pat Poolson, RN

- Disorders of Coagulation: (286.9) Obtain CBC, Platelet, Differential, PT, PTT, INR-- Please fax Pathology, Radiology, Laboratory and Operative reports if not available in CLIQ for this referral.
- Leukemia: (289.9) Obtain CBC, Platelet, Differential-- Please fax Pathology, Radiology, Laboratory and Operative reports if not available in CLIQ for this referral.
- Lymphoma: (289.9) Obtain CBC, Platelet, Differential-- Please fax Pathology, Radiology, Laboratory and Operative reports if not available in CLIQ for this referral.
- Pancytopenia: (289.9) Obtain CBC, Platelet, Differential-- Please fax Pathology, Radiology, Laboratory and Operative reports if not available in CLIQ for this referral.

LIH Hematology and Oncology (continued)

- Plasma Cell Dyscrasias: (203) Obtain CBC, Platelet, Differential, SPEP, UPEP, Beta-2 Microglobulin-- Please fax Pathology, Radiology, Laboratory and Operative reports if not available in CLIQ for this referral.
- Disorders of Platelets: (287.5) Obtain CBC, Platelet, Differential-- Please fax Pathology, Radiology, Laboratory and Operative reports if not available in CLIQ for this referral.
- Disorders of RBC's: (289.9) Obtain CBC, Platelet, Differential, Reticulocyte Count-- Please fax Pathology, Radiology, Laboratory and Operative reports if not available in CLIQ for this referral.
- Disorders of WBC's: (288.9) Obtain CBC, Platelet, Differential-- Please fax Pathology, Radiology, Laboratory and Operative reports if not available in CLIQ for this referral.
- Malignancy, Head & Neck: (149) Obtain Biopsy report, CT Scan Head & Neck with contrast-- Please fax Pathology, Radiology, Laboratory and Operative reports if not available in CLIQ for this referral. All MRI & CT Scans with contrast require documentation of current BUN/ Creatinine or GFR within 30 days of the performance of the study. (** See Metformin/Glucofage precautions on the referral form)
- Malignancy, Bone: (170) Obtain Biopsy report, CT Scan of affected area with contrast-- Please fax Pathology, Radiology, Laboratory and Operative reports if not available in CLIQ for this referral. All MRI & CT Scans with contrast require documentation of current BUN/ Creatinine or GFR within 30 days of the performance of the study. (**Metformin/Glucofage may be taken on the morning of studies requiring contrast but subsequently should be held for 48 hours. Repeat renal function evaluation prior to resumption of medication should be documented to avoid adverse outcomes.)
- Malignancy, Breast: (174.9) Obtain Biopsy report-- Please fax Pathology, Radiology, Laboratory and Operative reports if not available in CLIQ for this referral.
- Malignancy, Chest: (239.1) Obtain Biopsy report, CT Scan Chest & Abdomen with contrast-- Please fax Pathology, Radiology, Laboratory and Operative reports if not available in CLIQ for this referral. All MRI & CT Scans with contrast require documentation of current BUN/ Creatinine or GFR within 30 days of the performance of the study. (** Metformin/Glucofage may be taken on the morning of studies requiring contrast but subsequently should be held for 48 hours. Repeat renal function evaluation prior to resumption of medication should be documented to avoid adverse outcomes.)

LIH Hematology and Oncology (continued)

- Malignancy, GI/GU: (239.9) Obtain Biopsy report, CT Scan Abdomen & Pelvis with contrast-- Please fax Pathology, Radiology, Laboratory and Operative reports if not available in CLIQ for this referral. All MRI & CT Scans with contrast require documentation of current BUN/ Creatinine or GFR within 30 days of the performance of the study. (** Metformin/Glucophage may be taken on the morning of studies requiring contrast but subsequently should be held for 48 hours. Repeat renal function evaluation prior to resumption of medication should be documented to avoid adverse outcomes.)
- Malignancy, Melanoma: (172.9) Obtain biopsy report-- Please fax Pathology, Radiology, Laboratory and Operative reports if not available in CLIQ for this referral.

LIH Hepatitis C Clinic:

1450 Poydras Street, Third Floor

Phone: 504.903.2373

Fax: 504.903.1605

Nurse Manager: Patricia B Kilbert, RN

- Hepatitis C Antibody positive patients (070.70): Obtain: Acute Hepatitis Panel, Hepatitis C genotype and viral load, AFP, ANA, CBC, CMP, HIV, TSH, and Ultrasound of the liver. Patients may be scheduled in either the LSU, Tulane or LIH Hepatitis C clinic

LIH Hyperbaric Oxygen:

1450 Poydras Street, First Floor

- Hypertension, Asymptomatic, Stage 1: SBP 140-159, or DBP 90-99 (mm Hg)
- Hypertension, Asymptomatic, Stage 2: SBP > 160, or DBP >100 (mm Hg)
- Medication Prescription Needed (Prescriptions should be available from the patient's established provider, for those who do not have a medical home/provider to write the prescriptions or do not have enough medicine to last until their next appointment they may be seen in Hypertensive Urgency pending a primary care appointment)

LIH Infectious Disease & HIV Outpatient Clinic:**136 South Roman Street, Fourth Floor****Phone: 504.903.5607****Fax: 504.903.6842****Clinic Director: Dr. Lynn Besch****Nurse Manager: Pat Poolson, RN**

- Endocarditis (424.90)
- Hospital Discharge: ICD: _____ Diagnosis: _____
- HIV/AIDS: symptomatic and/or being treated (042) *The following studies are not required but are recommended prior to scheduling an appointment and would be helpful if available for the first visit: CBC with Differential/Platelets, CD4 Cell Count, CMP, G-6-PD, Hepatitis B & C screen, HIV Viral Load, Lipid Profile, RPR, Total Testosterone level (males), Toxoplasmosis Antibody, Uric Acid, Urinalysis, and Varicella antibody (females).
- HIV AB positive; asymptomatic and untreated (V08) *The following studies are not required but are recommended prior to scheduling an appointment and would be helpful if available for the first visit: CBC with Differential/Platelets, CD4 Cell Count, CMP, G-6-PD, Hepatitis B & C screen, HIV Viral Load, Lipid Profile, RPR, Total Testosterone level (males), Toxoplasmosis Antibody, Uric Acid, Urinalysis, and Varicella antibody (females).
- Tuberculosis and HIV/AIDS (without HIV/AIDS: refer to Wetmore Clinic) (011-118)

LIH Infectious Disease & HIV Outpatient Clinic (continued)

- Meningitis (320-322)
- Osteomyelitis (730)
- Skin or soft tissue infections (682.9)
- Syphilis (091-097)

LIH Nephrology Clinic:

136 South Roman Street, Fourth Floor

Phone: 504.903.5607

Fax: 504.903.2149

Nurse Manager: Pat Poolson, RN

- Chronic Kidney Disease (CKD) Stages 3, 4, or 5 (585.3, 585.4, 585.5): Obtain CBC, CMP, Lipid Profile, Urinalysis, Urine Protein, Urine Creatinine, and Renal Ultrasound for this referral.
- Cystic Kidney Disease (753.1): Obtain CBC, CMP, Urinalysis, Urine Protein, Urine Creatinine, and Renal Ultrasound for this referral.
- Diabetes Mellitus with Nephrotic Syndrome (250.4): Obtain CBC, CMP, Lipid Profile, Hemoglobin A-1-c, Urinalysis, Urine Protein, Urine Creatinine, and Renal Ultrasound for this referral.
- Fluid/Electrolyte Disorder (276.9): Obtain CBC, CMP, Urinalysis, Urine Protein, Urine Creatinine, Urine Electrolytes, Urine Osmolality, and Renal Ultrasound for this referral.
- Glomerulonephritis (580.9): Obtain CBC, CMP, Lipid Profile, Urinalysis, Urine Protein, Urine Creatinine, and Renal Ultrasound for this referral.
- Hematuria (Referral after Urologic evaluation/cystoscopy) (599.7): Obtain CBC, CMP, Urinalysis, Urine Protein, Urine Creatinine, and Renal Ultrasound for this referral.
- Hepato-Renal Syndrome (572.4): Obtain CBC, CMP, Urinalysis, Urine Protein, Urine Creatinine, Abdominal and Renal Ultrasound for this referral.

LIH Nephrology Clinic (continued)

- HIV with proteinuria or elevated creatinine (42): Obtain CBC, CMP, Lipid Profile, Urinalysis, Urine Protein, Urine Creatinine, and Renal Ultrasound for this referral.
- Hyperaldosteronism (255.9): Obtain CBC, CMP, Urinalysis, Urine Protein, Urine Creatinine, Urine Electrolytes, Urine Osmolality, and Renal Ultrasound for this referral.
- Hypertension (403.9): Obtain CBC, CMP, Urinalysis, Urine Protein, Urine Creatinine, and Renal Ultrasound for this referral.
- Kidney Transplant Status (V42.0): Obtain CBC, CMP, Lipid Profile, Urinalysis, Urine Protein, Urine Creatinine, and Transplant Ultrasound for this referral.
- Multiple Myeloma (203): Obtain CBC, CMP, Serum Protein Electrophoresis, Urinalysis, Urine Protein, Urine Creatinine, Urine Protein Electrophoresis, and Renal Ultrasound for this referral.
- Nephrolithiasis (592): Obtain CBC, CMP, Uric Acid, Urinalysis, Urine Protein, Urine Creatinine, Urine Electrolytes, Urine Osmolality, and Renal Ultrasound for this referral.
- Nephrotic Syndrome (581.9): Obtain CBC, CMP, Lipid Profile, ANA, HBV, HCV, HIV, SPEP, Urinalysis, Urine Protein, Urine Creatinine, and Renal Ultrasound for this referral.
- Pheochromocytoma (277): Obtain CBC, CMP, Urinalysis, Urine Protein, Urine Creatinine, 24 Hour Urine for VMA and Metanephrines, CT Scan of Kidneys, and Renal Ultrasound for this referral.
- Pre-op Evaluation CKD (V72.83): Obtain CBC, CMP, PT, INR, Urinalysis, Urine Protein, Urine Creatinine, CXR and EKG (and ECHO with CHF) for this referral.
- Proteinuria (791): Obtain CBC, CMP, Lipid Profile, ANA, HBV, HCV, HIV, SPEP, Urinalysis, Urine Protein, Urine Creatinine, and Renal Ultrasound for this referral.
- Renal Artery Stenosis (440.1): Obtain CBC, CMP, Lipid Profile, Urinalysis, Ur. Protein, Ur. Creatinine and Renal Ultrasound for this referral.
- Renal Mass (Refer to Nephrology after Urologic evaluation of mass) (239.5): Obtain CBC, CMP, Urinalysis, Urine Protein, Urine Creatinine, Lipid Profile, CT Scan of Kidneys and Renal Ultrasound for this referral.
- Sarcoidosis (135): Obtain CBC, CMP, Lipid Profile, Urinalysis, Urine Protein, Urine Creatinine, and Renal Ultrasound for this referral.

LIH Nephrology Clinic (continued)

- SLE Nephritis (710): Obtain CBC, CMP, ANA, Urinalysis, Urine Protein, Urine Creatinine, and Renal Ultrasound for this referral.

- Abscess or cellulitis (hand or arm) (682.4): Obtain CBC, C-reactive protein, ESR for this referral.
- Abscess or cellulitis (foot or leg) (682.7): Obtain CBC, C-reactive protein, ESR for this referral.
- AC joint injury/disease (831.04): Obtain X-ray of shoulder: A-P, Axillary,& Scapular Y views for this referral.
- Amputation (index finger) traumatic (886.0)
- Amputation (toe) Traumatic (895.0)
- Ankle Sprain or Strain (845.00): Obtain X-rays: A-P, Lateral & Oblique views of affected bone, joint for this referral.
- Avascular Necrosis (733.40): Obtain X-Rays (A-P & Lateral views) and MRI of affected area for this referral.

LIH Orthopedic Clinic (continued)

- Baker's Cyst knee (727.51): Obtain X-Rays (A-P & Lateral views) and MRI of affected area for this referral.
- Bone Cyst (733.20): Obtain X-Rays (A-P & Lateral views) and MRI of affected area for this referral.
- Bone Fracture Follow-up (V54.1): Obtain X-rays: A-P, Lateral & Oblique views of affected bone or joint for this referral.
- Bone Lesion (733.90): Obtain X-rays (A-P & Lateral views) and CT Scan of affected area for this referral.
- Bone Spur (726.91): Obtain X-Rays (A-P & Lateral views) of affected bone or joint for this referral.
- Bursitis (727.3): Obtain X-Rays (A-P & Lateral views) of affected bone or joint for this referral.
- Carpal Tunnel Syndrome (354.0): Obtain X-rays (A-P, Lateral & Oblique views) of hand & of wrist for this referral.
- Complication of Prosthesis or Device (996.7): Obtain X-rays (A-P, Lateral & Oblique views) of affected bone, joint for this referral.
- Complication of Prior Surgery (998.9): Obtain X-rays (A-P, Lateral & Oblique views) of affected bone, joint for this referral.
- Dislocated elbow (832.00): Obtain X-rays (A-P, Lateral & Oblique views) of affected bone, joint for this referral.
- Dislocated Finger or Thumb (834.00): Obtain X-rays (A-P, Lateral & Oblique views) of affected bone, joint for this referral.
- Dislocated: knee or patella (836.5): Obtain X-Rays (AP & Lateral views) of affected bone or joint for this referral.
- Dislocated: shoulder, recurrent (831.00): Obtain X-rays (A-P, Axillary, Scapular Y views) of shoulder for this referral.
- Ganglion Cyst (727.41): Obtain X-rays (A-P, Lateral & Oblique views) of affected bone or joint for this referral.

LIH Orthopedic Clinic (continued)

- Impingement syndrome: shoulder (726.2): Obtain X-rays (A-P, Axillary, Scapular Y views) and MRI of shoulder for this referral.
- Infection/Inflammation Joint Prosthesis (996.66): Obtain CBC, C-reactive protein, ESR for this referral.
- Infection/Inflammation Ortho Device (996.67): Obtain CBC, C-reactive protein, ESR for this referral.
- Joint Replacement--finger, hip, or knee (V43.60): Obtain X-Rays (AP & Lateral views) of affected bone or joint for this referral.
- Laceration Follow-up (V58.3)
- Lipoma (214.9): Obtain X-Rays (AP & Lateral views) of affected bone or joint for this referral.
- Mass: ankle or foot (719.6): Obtain X-rays (A-P, Lateral & Oblique views) of affected bone or joint for this referral.
- Mass: arm or knee (719.6): Obtain X-Rays (A-P & Lateral views) of affected bone or joint for this referral.
- Patella subluxation (836.3): Obtain X-Rays (A-P & Lateral views) of knee for this referral.
- Patella tendonitis (726.64) Obtain X-Rays (A-P & Lateral views) of knee for this referral.
- Patella Tendon Rupture (727.66): Obtain X-Rays (A-P & Lateral views) and MRI of knee for this referral.
- Postoperative Infection, seroma (998.51): Obtain CBC, C-reactive protein, ESR for this referral.
- Postoperative infection, other (998.59): Obtain CBC, C-reactive protein, ESR for this referral.
- Rotator Cuff Tear or Injury (840.4): Obtain X-rays (A-P, Axillary, Scapular Y views) and MRI of shoulder for this referral.
- Tear of Cartilage or Meniscus of Knee (836.2): Obtain X-Rays (A-P & Lateral views) and MRI of knee for this referral.

LIH Orthopedic Clinic (continued)

- Tendon Injury, Tear, or Rupture (727.60): Obtain X-Rays (A-P & Lateral views) and MRI of affected area for this referral.
- Tenosynovitis of Hand and/or Wrist (727.05): Obtain X-Rays (A-P & Lateral views) of affected bone or joint for this referral.
- Trigger Finger/Thumb (727.03): Obtain X-Rays (A-P & Lateral views) of affected bone or joint for this referral.
- Ulnar Collateral Ligament injury (841.1): Obtain X-Rays (AP & Lateral views) of affected bone or joint for this referral.
- Synovitis & Tenosynovitis (727.00): Obtain X-Rays (AP & Lateral views) of affected bone or joint for this referral.

- Heart Failure (428.0)

LIH Primary Care Referral (continued)

- History of Coronary Artery Disease: S/P MI, Angina, CABG or Stent Placement (414.0)
- Hyperlipidemia (272.4)
- Hypertension (401.1)
- Obesity (278.00)
- Sleep Apnea (780.50)

LIH Pulmonary & Asthma Clinic:

136 South Roman Street, Fourth Floor

Phone: 504.903.2373

Fax: 504.903.2149

Nurse Manager: Pat Poolson, RN

- Abnormal CXR, Suspect Neoplasm (793.1): Obtain CT Scan with contrast of Chest and Upper Abdomen, CBC, & CMP (within 30 days of scheduled CT), Calcium, LDH for this referral. **Note: All MRI & CT Scans with contrast require documentation of current BUN/ Creatinine or GFR within 30 days of the performance of the study. (Metformin/ Glucophage may be taken on the morning of the study but subsequently must be held for 48 hours & repeat renal function evaluation must be performed prior to resumption.)**
- Abnormal CXR, Other (793.1) **(Refer Asymptomatic PPD Positive Patients to Wetmore Clinic, Patients suspected of having active tuberculous pneumonia should be admitted for initiation of anti-tuberculous therapy)**
- COPD (496): Obtain CXR (P-A & Lateral views) and Complete PFT's with ABG (if Room Air Pulse Oximetry Is less than 90%) for this referral
- Unexplained Cough (786.2) Obtain CXR (P-A & Lateral views) for this referral
- Unexplained Dyspnea (786.09) Obtain CXR (P-A & Lateral views) and Complete PFT's with ABG (if Room Air Pulse Oximetry Is less than 90%) for this referral
- Hemoptysis (786.3) Obtain CXR (EPA & LAT), CBC, CMP, Calcium & LDH for this referral

LIH Pulmonary & Asthma Clinic:

- Interstitial Lung Disease (515) Obtain Complete PFT's with ABG (if Room Air Pulse Oximetry Is less than 90%), CBC, CMP, & EKG for this referral
- Pre-Op Evaluation (V72.83) Obtain Complete PFT's, ABG, & EKG (current within 6 months) CBC & CMP (current within 30 days of appointment) for this referral
- Pulmonary Hypertension (416.0) Obtain EKG, CXR--PA & Lateral, Echocardiogram & Complete PFT's with ABG for this referral

LIH Rheumatology and Immunology Clinic:

1450 Poydras Street, Third Floor

Phone: 504.903.2373

Fax: 504.903.1605

Clinic Director: Dr. Luis Espinoza

Nurse Manager: Patricia B Kilbert, RN

- Ankylosing Spondylitis (720.0): Obtain CBC, CMP, ESR, CRP, HLA-B27, and Urinalysis for this referral.
- Arthritis, Enteropathic (716.9): Obtain CBC, CMP, ESR, CRP, HLA-B27, and Urinalysis for this referral.
- Behcet's Syndrome (136.1): Obtain CBC, CMP, ESR, CRP, and Urinalysis for this referral.
- Churg-Strauss Arteritis (446.4): Obtain CBC, CMP, ESR, CRP, ANCA, C-ANCA, P-ANCA, and Urinalysis for this referral.
- CREST-Scleroderma (710.1): Obtain CBC, CMP, ESR, CRP, ANA, Scl-70, Anti-Centromere, Antibodies and Urinalysis for this referral.
- Dermatomyositis (710.3): Obtain CBC, CMP, ESR, CRP, ANA, Jo-1 and Urinalysis for this referral.
- Eosinophilic Fasciitis (728.89): Obtain CBC, CMP, ESR, CRP and Urinalysis for this referral.
- Essential Cryoglobulinemic Vasculitis (273.2): Obtain CBC, CMP, ESR, CRP, HBV, HCV, Cryocrit, SPEP, UPEP and Urinalysis for this referral.

LIH Rheumatology and Immunology (continued)

- Fibromyalgia (729.1): Obtain CBC, CMP, ESR, CRP, TSH, Free T4 and Urinalysis for this referral.
- Giant Cell (Temporal) Arteritis (446.5): Obtain CBC, CMP, ESR, CRP, ANCA and Urinalysis for this referral.
- Gout (274.0): Obtain CBC, CMP, ESR, CRP, Uric Acid and Urinalysis for this referral.
- Henoch-Schonlein Purpura (287.0): Obtain CBC, CMP, ESR, CRP, ANCA and Urinalysis for this referral.
- Hypersensitivity (allergic) Vasculitis (287.0): Obtain CBC, CMP, ESR, CRP, ANCA and Urinalysis for this referral.
- Joint Pain, inflammatory (714.9): Obtain CBC, CMP, ESR, CRP, ANA, RF, Anti-CCP Antibodies and Urinalysis for this referral.
- Lupus (SLE) (710.0): Obtain CBC, CMP, ESR, CRP, UA ANA, C3, C4 and Urinalysis for this referral.
- Microscopic Polyarteritis/polyangiitis (446.0): Obtain CBC, CMP, ESR, CRP, ANCA and Urinalysis for this referral.
- Mixed Connective Tissue Disorder (710.9): Obtain CBC, CMP, ESR, CRP, ANA, ENA Panel and Urinalysis for this referral.
- Osteoarthritis/DJD (715.90): Obtain CBC, CMP, ESR, CRP and Urinalysis for this referral.
- Polyarteritis Nodosa (446.0): Obtain CBC, CMP, ESR, CRP, ANCA and Urinalysis for this referral.
- Polymyositis (710.4): Obtain CBC, CMP, ESR, CRP, ANA, Jo-1 and Urinalysis for this referral.
- Pseudogout (Chondrocalcinosis) (712.0): Obtain CBC, CMP, ESR, CRP and Urinalysis for this referral.
- Psoriatic Arthritis (696.0): Obtain CBC, CMP, ESR, CRP, HLA-B27 and Urinalysis for this referral.

LIH Rheumatology and Immunology (continued)

- Raynaud’s Phenomenon (443.0): Obtain CBC, CMP, ESR, CRP, ANA and Urinalysis for this referral.
- Reiter’s Syndrome (711.10): Obtain CBC, CMP, ESR, CRP, HLA-B27 and Urinalysis for this referral.
- Relapsing Polychondritis (733.99): Obtain CBC, CMP, ESR, CRP and Urinalysis for this referral.
- Rheumatoid Arthritis (714.0): Obtain CBC, CMP, ESR, CRP, ANA, RF, Anti-CCP Antibodies and Urinalysis for this referral.
- Sjogren ’s Syndrome (710.2): Obtain CBC, CMP, ESR, CRP, ANA, ENA Panel and Urinalysis for this referral.
- Takayasu Arteritis (446.7): Obtain CBC, CMP, ESR, CRP, ANCA, and Urinalysis for this referral.
- Vasculitis (447.6): Obtain CBC, CMP, ESR, CRP, ANCA, and Urinalysis for this referral.
- Wegener’s Granulomatosis (446.4): Obtain CBC, CMP, ESR, CRP, ANCA, C-ANCA, P-ANCA, and Urinalysis for this referral.
