Update on Library Services
Although the collection is in storage, the dental library has myriad resources and services to offer dental faculty, students, and staff. Dental librarians Julie Schiavo and Liz Strother work in the South Campus library office, now in Building 3005, Room 104, three days per week, normally Monday, Tuesday, and Thursday. When not in Baton Rouge, you can reach us at the Isché Health Sciences Center Library by phone or email. Among the services we offer are database searching, document delivery, reference service, and assistance with library patron registration and barcodes.

Contact us in New Orleans:
Julie Schiavo, jschia@lsuhsc.edu, 504-568-6104
Liz Strother, estrot@lsuhsc.edu, 504-568-7698

Most of the books that were checked out to patrons when Katrina hit have been returned and are now available for circulation in the office on South Campus. In addition, the library is beginning to purchase new titles, which are also shelved in Room 104. The usual circulation rules apply, so except for books on reserve, all titles can be checked out for two weeks. Cataloged books in the South Campus collection are listed in Innopac with the location "Dental Library Office-BR." Requests for new purchases are welcomed!

Most journal issues from 2005 and 2006 are now shelved at the Isché Health Sciences Center Library in New Orleans. The LSUHSC-NO libraries subscribe to a large number of dental and medical journals online, so dental faculty, staff, and students can read or print articles in PDF format from any location. Because South Campus is not on the LSUHSC network, all access from the dental school is "off campus" or remote, requiring a library barcode. See the article on remote access for further details.

E-Dental Books in Stat!Ref
Stat!Ref, an online database of medical reference books, also has a module of dental textbooks. The following 17 electronic dental titles are currently in Stat!Ref:

Goldstein, Esthetics in Dentistry. 2 vols, 1998, 2002
Greenberg, Burket's Oral Medicine Diagnosis and Treatment. 10th ed. 2003
Hall, Critical Decisions in Periodontology. 4th ed. 2003
Harris, Primary Preventive Dentistry. 6th ed. 2004.
Ingle, Endodontics. 5th ed. 2002
Laskin, TESSTROMANDIBULAR DISORDERS. 2006
Marx, Oral and Maxillofacial Pathology. 2003
Mitchell, Oxford Handbook of Clinical Dentistry. 4th ed. 2005
Silverman, Oral Cancer. 5th ed. 2003
Soames, Oral Pathology. 4th ed. 2005
Welbury, Paediatric Dentistry. 3rd ed. 2005
Remote Access to Library Resources

The LSUHSC-NO libraries have established a system, Web Access Management, that allows patrons to access many library resources, including databases and electronic journals and books, from off-campus. Web Access Management (or WAM for short), requires you to log in at the beginning of each browser session when you click on one of the linked resources from our catalog or website.

Three items are necessary for you to log in to WAM:

- Name (first and last name as you registered in the library)
- Library barcode number (14 digit number on the back of your LSUHSC ID)
  If you don’t have a library barcode, please see us in the library in New Orleans or Baton Rouge so we can issue one to you. *This is not the barcode that you used to check out charts when the New Orleans campus was open.*
- PIN (you create this combination of up to 8 numbers or letters the first time you use WAM)

For remote access to databases, select the “Off Campus” link:

For journals, click on the link in the catalog record:

You will be taken to the WAM login screen:
Click on "Proceed to the Database." In the next WAM screen, retype your name and barcode, then create a PIN.

The next screen will allow you access to resources just as if you were in the library in New Orleans!
Some common error messages you might encounter:

- **Cannot locate patron record**: your record is no longer in the library database, your record has expired, or you are not eligible for WAM access.
- **Hourglass image**: the system is busy or your record may be blocked.
- **Invalid PIN**: You mistyped or misremembered your PIN. Contact the library to reset your PIN.
- **AOL** users cannot use the AOL browser with the WAM product; they are incompatible.

If you have any questions or forget your PIN, please contact the dental librarians:

- (225) 334-5459, in Baton Rouge
- (504) 568-7698 or (504) 568-6104, in New Orleans

**New Interlibrary Loan Service Now Available**
The LSUHSC-NO libraries are pleased to offer a new automated system for obtaining journal articles and books from other libraries. This new system, called ILLiad, has distinct advantages over the previous system:

- You can electronically submit your own ILL requests anytime, day or night.
- There is no need for paper forms.
- With the one-time registration process, you no longer need to re-enter personal information for each request.
- You can check the progress of your requests on the Web at all times.

You must register to use ILLiad. Begin by clicking on the link on the dental library homepage. Please read the policies on the page and then click on the "First Time Users" link.

This will direct you to a page with more information about the system. Click on “First Time Users Click Here.” The next page will prompt you to enter your personal information, including your name, address, department, and delivery location. If you are on campus in Baton Rouge and choose the “Dental Circulation Desk,” the dental librarians will deliver your materials to you on South Campus. When you are finished entering the required information, click on the “Submit Information” button at the bottom of the screen.
You will then be directed to an account information screen. The default account is Cash but if you have a PeopleSoft departmental or grant account to which you would like to charge your interlibrary loans, you can enter it here. You may enter as many PeopleSoft accounts as you like. Most requests are free, but we must have this information on file in case there is a charge and you have agreed to accept an item if there is a fee.

You will be registered with ILLiad once you complete the Accounts screen and may now begin entering requests. The next time you have journal articles or books to order, you do not have to register again; just log in with your user ID and password and enter your requests. Note that you can enter only one request per screen.

The library will soon offer classes on registering for and using ILLiad. Please watch for announcements and attend one of these sessions!

**Paperback Exchange Collection is Back!**
The library on South Campus has a new collection of novels, mysteries, westerns, and thrillers. The collection keeps growing, so there is bound to be something for every reading taste. Please be sure to stop by Room 104 in the Preclinical Building to browse the collection and take home some books. They do not need to be checked out, so whenever the door is open, please come in and help yourself to some books for leisure-reading.

**Recent Acquisitions**

**Circulating and Reserve Books**

Sturdevant, Clifford M. *Sturdevant’s art and science of operative dentistry*. 5th ed. St. Louis, Mosby, 2006. (WU 300 St9a 2006)
