

Activating the Dynamed Mobile App

1. Access the web version of Dynamed
From the Library's Page go to **Databases-Dynamed**
If not on campus, be sure to click the Off-Campus link; you will be asked to log in with your name, barcode, and PIN

The screenshot shows the LSU Health Libraries website. The top navigation bar includes links for Career Opportunities, Contact, and Donate. Below this is a search bar and a row of school names: School of Allied Health Professions, School of Dentistry, School of Graduate Studies, School of Medicine, School of Nursing, School of Public Health, and LSU Patient Care. The date and time are Friday, August 14, 2015, 2:33 PM, and the temperature is 91°F. A sidebar on the left lists various library resources, with 'Databases' selected. The main content area is titled 'Databases - DynaMed' and provides information for On Campus and Off Campus access, both pointing to EBSCOhost. A description of the database is provided, highlighting its clinical focus and extensive coverage of disease topics, drug summaries, and medical journals.

2. Click the "Mobile" link at the top of the Dynamed page

The screenshot shows the Dynamed website interface. The top navigation bar includes links for Home, Recent Updates, E-Newsletter, Mobile, and Calculators. A red arrow points to the 'Mobile' link. The main content area features the Dynamed logo, a search bar, and a 'Search' button. Below the search bar is a 'Browse' section with a list of letters (A-Z) and a 'Browse Categories' link.

3. Enter the e-mail for an account you have configured on your mobile device

The screenshot shows a form titled 'iPhone and Android apps' for mobile app activation. The form includes a text input field for the user's email address, a 'Send' button, a 'Cancel' button, and a 'Learn More' link. The instructions state: 'Enter your email address to send yourself the instructions, key and a link to download the app.' Below the input field, it says 'Separate each e-mail address with a semicolon.'

4. Before you can use the link in the message sent from Dynamed to activate the mobile version, you will need to have downloaded the Dynamed app from either the Google Play or Apple App stores. You can then click the link in the message and you will be able to use Dynamed without having to authenticate for another six months.
