

Am I Subject to 212(e)?

Look at the DS-2019 forms for your program(s). A program is the entire duration of your J status in a particular category as shown on your DS-2019 forms. The first form will show the purpose as “Begin a New Program.” A single program continues until the end date listed on your last DS-2019 form with the “Begin a New Program” form’s start date. This may include several extension, etc. You may have traveled and re-entered the U.S. multiple times during the same program. Check any of the following that apply:

- Government funding indicated on DS-2019
You ARE likely subject.
- No Government funding indicated on DS-2019
May not be subject
- Graduate Medical Education (Alien Physician)
You ARE subject.
- NO Graduate Medical Education
May not be subject

Even if you may not be subject based on the above, you may still be subject if your country(ies) of citizenship or last permanent residence, as shown on the DS-2019, is on the skills list. The date you were admitted to the U.S. as a J status holder (stamped on the I-94/passport,DS-2019), or the effective date you changed status (effective date on I-797 Approval Notice) to J is the date that should be used when deciding which skills list applies to you. This is not always the same as the program start date listed on the DS-2019.
