LSUHSC-NO Annual Security and Fire Safety Report 2023

University Police Authority

The University Police Department (UPD) is the legal enforcement authority on LSUHSC-NO property and on all streets, roads, and rights-of-way to the extent they are within or contiguous to the perimeter of the campus. Police officers must successfully complete the training curriculum mandated by the Louisiana Peace Officer Standards and Training Commission that includes such topics as criminal law and procedures, patrol and investigation practices and techniques, firearms, first aid and physical training. An array of in-service training programs is provided to update and enhance the professional skills of the officers.

University police officers are vested with all of the powers, authority and responsibilities of any police officer of the state on property owned by the University, including adjacent public streets. Police authority is derived from Section 17:1805 of the Louisiana Revised Statutes. Currently, UPD has a formal written agreement with the New Orleans Police Department, and cooperates fully with federal, state and other local law enforcement agencies in cases which involve both on-campus and off-campus jurisdiction or when the resources of another agency can be used to facilitate the resolution of an investigation.

UPD is primarily responsible for security, safety, law enforcement and emergency services for the university community, in cooperation with the Office of Environmental Health and Safety, the Campus Assistance Program, the Office of Compliance Programs and other departments as necessary to enhance the safety and security of the campus.

Reporting Crime or Emergencies

If you are involved in an emergency situation, the victim of a crime, or witness any criminal activity, you are urged to notify UPD as soon as possible by dialing one of the numbers listed below. Off-campus crimes may be reported to the New Orleans Police Department (NOPD) by dialing 911. Dispatchers are available at these respective telephone numbers 24 hours a day to answer your call. In response to a call, UPD will take the required action, dispatching an officer or asking the victim to report to the university police office to file an incident report.

If assistance is required from NOPD, the New Orleans Fire Department, or other such outside agencies, university police will assist, direct and/or contact the appropriate entity/unit. If a sexual assault or rape should occur, staff on the scene, including UPD, will assist the victim to the Campus Assistance Program.

All crimes occurring within or adjacent to the LSUHSC-NO campus should be reported to UPD, even if they have already been reported to NOPD, to ensure appropriate response, assistance in reporting crimes to appropriate law enforcement authorities, inclusion in the annual crime statistics and to aid in providing timely warning notices to the community, when appropriate.

UPD encourages anyone who is the victim or witness to any crime to promptly report the incident to the police. Because police reports are public records under state law, UPD cannot hold reports of crime in confidence. Confidential reports for purposes of inclusion in the annual disclosure of crime statistics can generally be made to other campus authorities as identified below.

Reporting Requirements for Pastoral and Professional Counselors

Campus “Pastoral Counselors” and Campus “Professional Counselors”, when acting as such, are not considered to be a campus security authority and are not required to report crimes for inclusion into the annual disclosure of crime statistics. As a matter of policy, they are encouraged, if and when they deem it appropriate, to inform persons being counseled of the procedures to report crimes on a voluntary basis for inclusion into the annual crime statistics. If the person being counseled wishes assistance in reporting the crime, the counselor will notify UPD.

LSU Shield App

The LSU Shield App is a free smartphone app available for iPhone and Android which allows the user to:

- Summon emergency services by telephone with a single button.
- Submit non-emergency reports including a picture and a video.
- Two-way chat with LSUHSC Police.
- Submit reports anonymously.
- Instantly notify pre-identified contacts of your safety and location.

LSUHSC-NO Annual Security and Fire Safety Report 2023

- Activate the Safety Beacon feature that allows your pre-identified contacts to monitor your safety plus much more.

Users complete and save a profile which stores on the device. Profile information is not communicated to LSUHSC Police until the user initiates a request for service. The profile will allow for up to three Emergency Contacts to be selected from the device address book. You must allow location services when downloading the app. Location accuracy and proper call routing are greatly improved when the user is connected to Wi-Fi.

uTip

As an added measure of security for LSU Health Sciences Center faculty, staff and students, we have activated uTip, a text messaging service allowing you to alert university police of an emergency. By sending a text message to **79516** and beginning your message with LSUHSC, you can notify university police of an emergency situation, just as you would by calling the emergency university police telephone line. It is like an SMS text version of 911 but directed to our university police.

You do not have to subscribe to this service, and you do not have to be registered with our emergency alert system to use uTip. However, your normal text message rate through your cellular provider will apply. For more information, click on the following link:

LSUHSC-NO Annual Security and Fire Safety Report 2023

Faculty and staff can obtain an ID through the Benefits Section of the Department of Human Resource Management. Students can obtain an ID through the Registrar's Office.

*To request access to the Trail Clinical Sciences and Research Building, a letter on official LSUHSC-NO departmental stationary must be sent to UPD.

Use of Surveillance Cameras: UPD uses a series of cameras to monitor various locations around campus that include but are not limited to parking lots, garages, the Walk to Wellness, and other sensitive areas.

Residence Hall Access and Security: Students housed in the Residence Hall must use their entry key to enter the ground level of the dorm. Second level entry is restricted to the residents of the dorm only. All guests must enter through ground level of the Residence Hall and state the nature of their visit to the officer on duty (24 hours a day, 7 days a week). Guests must be escorted to the resident's room by the resident. Residents are responsible for ensuring that their guest(s) will comply with the rules and policies of LSU Health and Residence Hall.

More information on these policies can be found at the following link:

Emergencies or repair work may necessitate changes or alterations to any posted schedules. Faculty, staff and students will be notified of repair work that significantly affects building access by mass email. Areas that are revealed as problematic have security surveys conducted of them. Administrators from the dean's office, university police, facilities and other concerned areas review these results. These surveys examine security issues such as landscaping, locks, alarms, lighting, communications, and other security issues of pressing concern. Criminal Activity that Occurs Off Campus

UPD does not provide law enforcement services to off campus locations. NOPD responds to crimes occurring outside the LSUHSC-NO campus and they can be reached by dialing 911. UPD have an active Memorandum of Understanding, (MOU), with NOPD and often perform joint investigations together.

Timely Warnings

It is the responsibility of the university through its UPD to keep the campus community informed of serious incidents of which it becomes aware. Working in conjunction with other university departments, UPD will issue alerts in a timely manner to the campus community about crimes in and around the campus. When UPD receives information that a violent crime against a person or a serious threat to persons or property has occurred or is imminent, an alert will be sent out via email, Omnilert text messaging system and/or posted on the university's digital signage as appropriate. The alert will contain the following information:

- Type of incident
- Time of the incident
- Location of the incident
- Description of the suspect(s)
- Summary of the incident

Whenever a report of a crime or serious incident is received by UPD, UPD will work with the reporting individual and other campus officials, to determine whether a safety bulletin and/or crime alert should be issued.

Fire Safety

The Office of Environmental Health and Safety is responsible for the development and maintenance of the university's Fire Safety Policy. For more details, refer to the university's Fire Safety Policy is available at the following link:

Emergency Response

The LSUHSC-NO community is encouraged to notify the university of any situation or incident on campus that may involve a significant emergency or dangerous situation that poses an immediate or ongoing threat to the health and safety of university faculty, staff, students, patients or visitors. UPD is charged with responding to reported incidents in order to determine whether the incident, in fact, presents a threat to the community and with requesting other resources necessary to investigate, mitigate, or document the situation. The Office of Environmental Health and Safety is responsible for developing and maintaining the Emergency Response Plan. For more details refer to the Emergency Response Plan available at the following link:

<http://www.lsuhs.edu/emergencypreparedness/>

All employees and students will receive training annually on the Emergency Response Plan. Completion of training is tracked by the Office of Compliance programs. Each employee's training completion status is reported to his/her department head monthly. Each student's completion status is reported monthly to their dean or program director as appropriate.

LSUHSC transmits information via the university web site, phone trees, email, text messaging and crawlers on digital signs placed at key locations around the campus. During an emergency, the Text Alert System (a key element of the Emergency Alert System) is used to send text alert messages directly to your phone. To receive these alerts, you must opt-in to the system by providing your cell phone or personal email information during registration. See the link below for more information regarding registration.

<http://911.lsuhs.edu/eas/textemailalerts.aspx>

Missing Student Notification

Anyone who suspects that an LSUHSC-NO student who resides in on-campus housing is missing should immediately contact UPD at 504-568-8999. UPD will begin an investigation in order to determine whether the student is missing. Once UPD investigates and determines that the student has been missing for more than 24 hours, the university will notify other local law enforcement agencies and the student's emergency contact within 24 hours after the student is determined to be missing. Contacts to local law enforcement agencies will be made whether or not the missing student has designated a contact person.

At the beginning of each semester, students living in on-campus housing will be given the opportunity to designate a contact person or persons to be notified if the student is determined to be missing. If a student is under the age of 18 and is not emancipated, the university will notify the custodial parent within 24 hours after the student is determined to be missing. Any contact person that the student has designated will also be contacted within 24 hours after the student is determined to be missing. Any contact information provided by the student will be registered confidentially and will be accessible only to authorized university and law enforcement officials.

LSUHSC-NO Annual Security and Fire Safety Report 2023

Additionally, contact information will not be disclosed outside of a missing person investigation.

Client Resources

<https://www.lsuhs.edu/titleix/resources.aspx>

It is a personal decision whether to report a rape or sexual assault to police, but victims are strongly encouraged to do so. The primary concern of the police is your safety and well-being; their second and third concerns are apprehending the assailant and preserving the evidence of the crime. If the perpetrator of the assault is a LSUHSC-NO Student, survivors have the option of filing a complaint with the Disciplinary Committee of the student's school.

LSUHSC-NO will make reasonable accommodations to a victim's academic and/or living situations after an alleged sex offense if those changes are requested by the victim and are reasonably available. These include but are not limited to:

- Allowing the victim to change their class schedule.
- Allowing the victim to move to a different residence.

Employees can request accommodations through their supervisor or Human Resources Management. Students can request accommodations through the Student Affairs office of their school.

Protective Orders: A person seeking protection may ask the court for protection by filing a petition for a restraining order. The person in need of protection is the petitioner, the person against whom the petition is filed (the abusive person) is the defendant. There are no filing fees and court costs for this process. It is not necessary to have an attorney to file the petition or to represent the petitioner at court. Petitioners may get forms and assistance from the website below, from the parish Clerk of Court's office, or from victim advocates at the local battered women's program or district attorney's victim assistance program.

Reporting Power-Based Violence or Title IX Misconduct is available at the following link:

Preserving Evidence: In the immediate aftermath of a sexual assault, the most important thing is for the victim to get to a safe place. Whether it be the victim's home, a friend's home or with a family member, immediate safety is what matters most. When a feeling of safety has been achieved, it is vital for the victim to receive medical attention, and a forensic examination.

Preserving DNA evidence can be key to identifying the perpetrator in a sexual assault case, especially those in which the offender is a stranger.

DNA evidence is an integral part of a law enforcement investigation that can build a strong case to show that a sexual assault occurred and to show that the defendant is the source of biological material left on the victim's body.

Victims should make every effort to save anything that might contain the perpetrator's DNA, therefore a victim should not:

- Bathe or shower
- Use the restroom
- Change clothes
- Comb hair
- Clean up the crime scene
- Move anything the offender may have touched

Even if the victim has not yet decided to report the crime, receiving a forensic medical exam and keeping the evidence safe from damage will improve the chances that the police can access and test the stored evidence at a later date.

Disciplinary Proceedings: University disciplinary proceedings are detailed in the Student Handbook of each school. The proceeding shall provide a prompt, fair, and impartial investigation and resolution. In accordance with PM-73, Title IX and Sexual Misconduct Policy, a preponderance of the evidence is the standard used. The handbook provides, in part, that the accused and the victim will each be allowed to choose one person to accompany them throughout the hearing. A student found guilty of violations of this policy could be criminally prosecuted in the state courts and may be suspended or expelled from the university for the first offense. Both the accuser and the accused shall be simultaneously informed, in writing, of:

- a. The outcome of the institutional disciplinary proceeding.
- b. The institution's procedures for the accused and the victim to appeal the results of the institutional disciplinary proceeding.
- c. Any change to the results that occurs prior to the time that such results become final.

LSUHSC-NO Annual Security and Fire Safety Report 2023

d. When such results become final.

University officials who conduct disciplinary proceedings are required to complete annual training on training on issues related to domestic violence, dating violence, sexual assault, and stalking, and how to conduct an investigation and hearing process that protects the safety of victims and promotes accountability.

A student or employee who reports domestic violence, dating violence, sexual assault, or stalking, whether the offense occurred on or off campus, shall be provided with a written explanation of the student or employee's rights and options.

- Chancellor's Memorandum 44, Campus Security Policy and Violence Risk Reduction Plan for additional details regarding the handling of sexual violence complaints.
<http://www.lsuhs.edu/administration/cm/cm-44.pdf>

Violations of these policies may result in outcomes such as residential life contract cancellation, deferred suspension, suspension, expulsion, class only restriction (student) and/or disciplinary action or separation of employment.

Bystander Intervention: Bystander intervention is an essential component in preventing violence because it addresses harmful behaviors before they escalate.

If you SEE SOMETHING, SAY SOMETHING!!

Watch out for your fellow employees and students

- If you see someone who looks like they are in trouble, ask if they are okay.
- If you have a concern about a friend's actions, say something to him or her.
- Be respectful of yourself and others.
- Challenge your peers to be respectful.

Believe someone who discloses a sexual assault, abusive relationship, or experience with stalking or cyber stalking.

Emergency Situations - General Strategies

- Emergency situations unfold quickly and often require immediate helping responses.
- Carefully assess the entire situation/circumstances before making any decisions or taking any action.
- Choose the most effective ways of helping for that particular situation. Be sure to not make the situation escalate.

LSUHSC-NO Annual Security and Fire Safety Report 2023

- Consider both direct and indirect ways to intervene:
 - Direct: You take responsibility as the primary helper.
 - Indirect: You request that someone else take responsibility as the primary helper (e.g., NOPD, University Police, Emergency Medical Trained or EMT personnel, etc.)
- Whatever response you choose, remember the following in an emergency/crisis:
 - Calm the person
 - Gather information
 - Look at options
 - Provide support
 - Know appropriate referrals
- Make safe choices; consider the level of risk in choosing an action for intervening.
- Understand boundaries and limits — don't be a hero. Remember verbal fights can quickly turn into physical fights. It is often better to WALK AWAY.
- Intervene early — before a problem becomes a crisis or disaster.
 - Publicly state your commitment to helping. "I will do X."
 - Engage other bystanders — You do "Y."
- Do not become enmeshed in the argument or confrontation.
- Look for the best exit strategies (getting out of the situation) for those involved. (Think win-win)
- Be clear and direct with all of your requests.
- Assess personal exposure/liability when actions you know about are criminal.
- If it is not safe or prudent for you to help directly:
 - Call University Police
 - Call 911
 - Text an alert to uTip

It is better to speak up and find nothing is wrong than not to speak up and have something bad happen that could have been prevented.

Risk Reduction: Individuals can reduce the risk of becoming a victim by using the following strategies:

- Always be aware of your surroundings. Knowing where you are and who is around you may help you to find a way to get out of a bad situation. (Take away the surprise)
- Try to avoid isolated areas. It is more difficult to get help if no one is around. (Mitigate assailant's strength advantage)
- Don't allow yourself to be isolated with someone you don't trust or someone you don't know. (Mitigate assailant's strength advantage)
- Trust your instincts. If a situation or location feels unsafe or uncomfortable, LEAVE!!!!
- Limit your consumption of intoxicants to the point where you can still defend yourself if you must. (A survey of students at 171 institutions of higher education, alcohol was involved in 74% of all sexual assaults.)

LSUHSC-NO Annual Security and Fire Safety Report 2023

- At parties and other gatherings, get your own food and drinks, watch how they are prepared and keep track of them. If you lose track of your food or drink, discard it, and get some more.
- Have a check in plan. Always make sure that a trusted friend or relative knows where you are and where you are going and when to expect to hear from you again.
- Avoid walking alone.
- Stay in well lighted areas.
- Make note of all individuals, obstacles and exits within a 20-foot radius.
- Take a self-defense course. (Take away size and strength advantages)

Sex Offenders

The Campus Sex Crimes Prevention Act of 2000 (CSCPA), signed into Law October 28, 2000, amends the Jacob Wetterling Crimes Against Children and Sexually Violent Offender Registration Act.

CSCPA provides special requirements relating to registration and community notification for sex offenders who are enrolled in or work at institutions of higher education. In addition to Wetterling, the Act also amended the Clery Act and the Family Educational Rights and Privacy Act of 1974.

As provided in the Wetterling Act, any person required to register under a state sex offender registration program must notify the state as to whether the person is a student or works at an institution of higher education, identify each institution of higher education in that State at which the person is employed, carries on a vocation, or is a student and must also alert the state of any change in enrollment or employment status.

The Louisiana State Police maintain the Louisiana Sex Offender and Child Predator Registry (SOCPR) for the State of Louisiana and are responsible for the enforcement of the applicable sections of law cited above. Information about any individual affiliated with Louisiana State University in regard to this matter may be found at the public SOCPR website:

<https://www.lsp.org/community-outreach/sex-offender-registry/>

Records

Records associated with violence on the Campus need to be kept in a permanent, secure, and confidential manner. It shall be the responsibility of the Critical Incident Threat Assessment Team to help evaluate security, methods of hazard control, and identify training needs. The following records are important and shall be maintained in accordance with pertinent statutes as part of the violence prevention program:

- Reports of work injury, including workers' compensation injuries, if necessary.
- Report for each reported assault, incidents of abuse, verbal attack, or aggressive behavior occurring between persons on campus.

LSUHSC-NO Annual Security and Fire Safety Report 2023

- Police reports of incidents occurring on campus.
- Minutes of safety meetings, records of hazards' analysis, and corrective actions recommended.
- Preventing Violence on Campus training, including subjects covered, attendees, and qualifications of trainers and other appropriate reports.

Campus Analysis

The process of campus analysis involves a step-by-step, commonsense look at the campus to find existing or potential hazards for the occurrence of campus violence. The campus analysis entails reviewing specific procedures or operations that contribute to hazards and specific locales where hazards may develop. The campus analysis program includes, but is not limited to:

- Reviewing reports and minutes from staff meetings on safety and security issues.
- Analyzing trends in illness/injury or fatalities caused by violence.
- Measuring improvement based on lowering the frequency and severity of campus violence.

Rights

Mistreatment and abuse of students by faculty, residents, staff or fellow students is contrary to the educational objectives of the LSUHSC in New Orleans and will not be tolerated.

Mistreatment and abuse include, but are not limited to, berating, belittling, or humiliation; physical punishment or threats; intimidation; sexual harassment; harassment or discrimination based on race, gender, sexual preference, age, religion, physical or learning disabilities; assigning a grade for reasons other than the student's performance; assigning tasks for punishment or non-educational purposes; requiring the performance of personal services; or failing to give students credit for work they have done.

Students have rights as guaranteed by the U.S. Constitution and all appropriate federal, state and local laws. Primary among those is the right to a fair and impartial hearing, if the student is accused of misconduct or violating university regulations. Additionally, students have the right to file a complaint for alleged mistreatment. The Health Sciences Center has existing policies and procedures that relate to the following: financial aid; sexual harassment; final grade appeal; student housing; parking; drugs; alcohol; firearms; student's access to records, and privacy; computer/internet use; dress and professional conduct; health insurance; and liability insurance. Issues that relate to these specific policies, which may be found on the Health Sciences Center website, should be addressed to the appropriate office. The Office of Student Affairs of the appropriate school can help students with information about those policies.
