

How to Create a PowerPoint Polling Presentation?

Instructors must create a slide with questions and answers before polling presentation.

1. Open TurningPoint Desktop and sign into your Turning Technologies Account.
2. Select the **POLLING** tab in the TurningPoint Dashboard.
3. Select the course from the left panel.

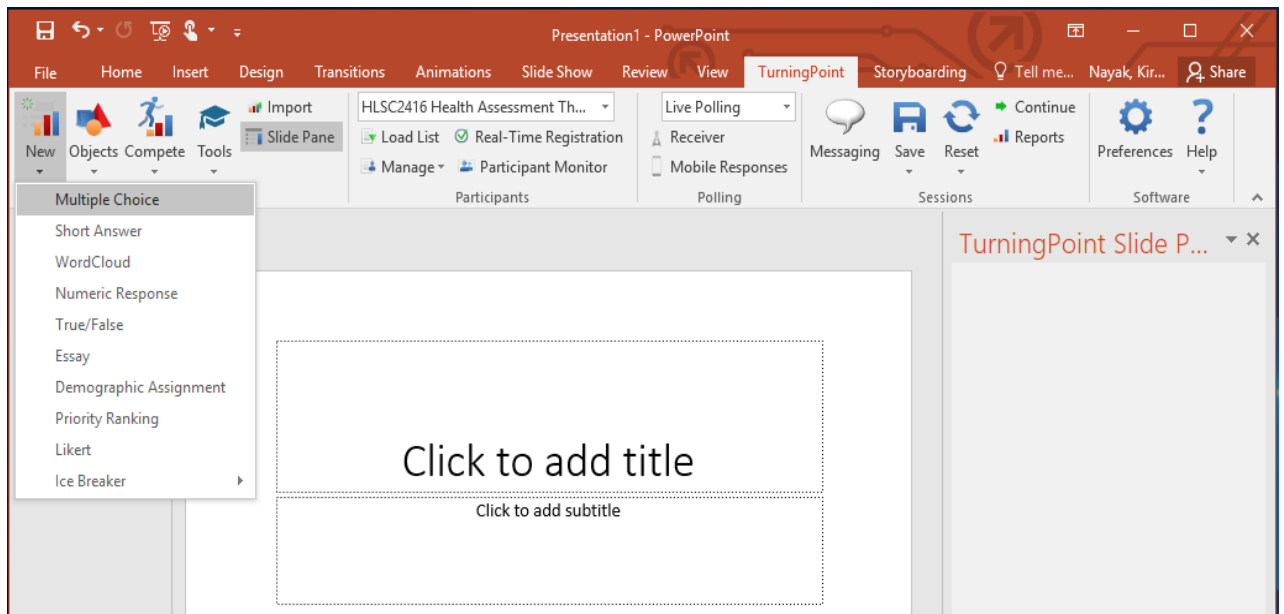

4. Click **PowerPoint** from the polling environment. The *PowerPoint* presentation window is then displayed.

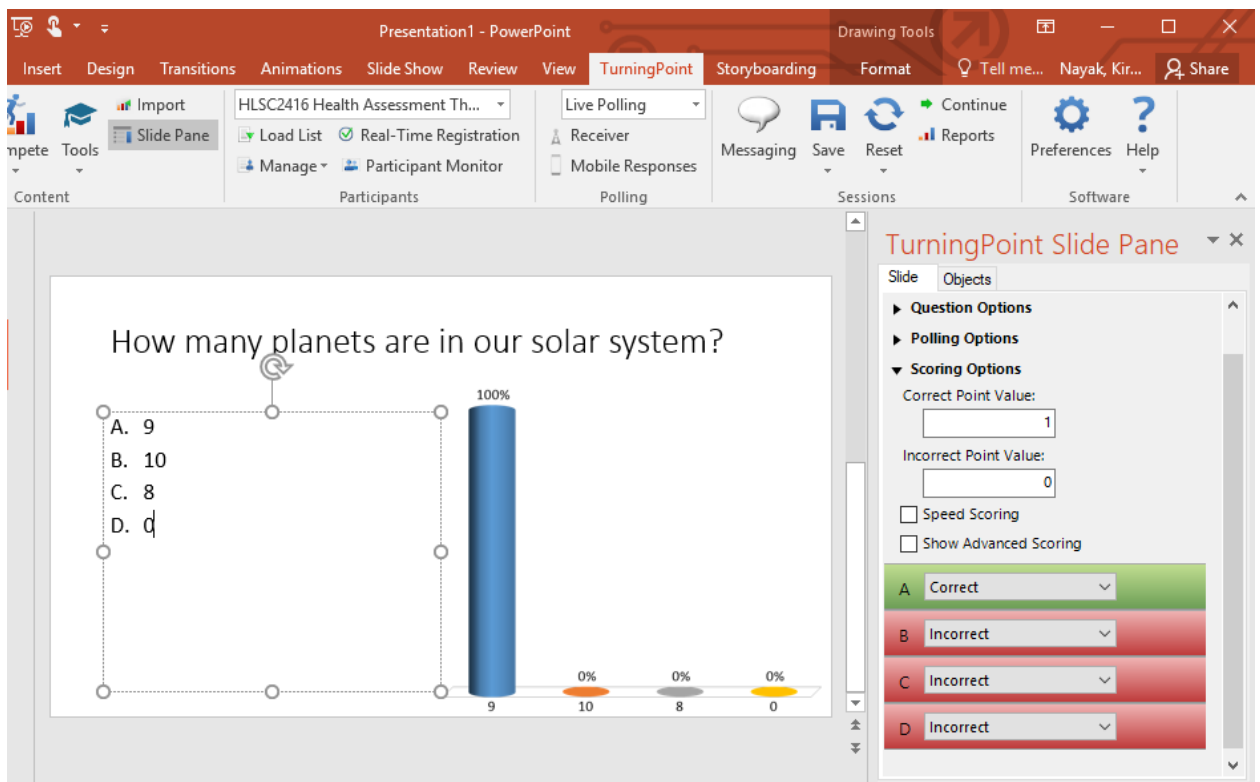

5. From the **TurningPoint** ribbon, click on **New** on the left. Select a **question type** from the drop down.

NOTE: For more information on question types, see Question Types and Options.

6. Enter the **question text** and **answer text** (if applicable).

- From the **TurningPoint Slide Pane**, select **Slide**. Select the correct answer in the **Scoring Options**.

The screenshot shows the 'TurningPoint Slide Pane' window with the 'Slide' tab selected. The 'Question Options' section includes checkboxes for 'Anonymous' and 'Multiple Responses', and a 'Bullet Format' dropdown set to 'A, B, C, D'. The 'Polling Options' section has checkboxes for 'Automatically Open Polling' and 'Show Results' (both checked), and a dropdown for 'After Polling'. The 'Scoring Options' section includes input fields for 'Correct Point Value' (set to 1) and 'Incorrect Point Value' (set to 0), and checkboxes for 'Speed Scoring' and 'Show Advanced Scoring'. At the bottom, there are four answer options: 'A Correct' (highlighted in green), 'B Incorrect' (red), 'C Incorrect' (red), and 'D Incorrect' (red).

- Repeat steps 5, 6 and 7 as many times as needed to create the PowerPoint Polling presentation.
- When finished, **save** the presentation by selecting **File > Save/Save As**.
