## DBR0702 Vertical Knee-Up DISCOVERY™ SERIES BENCHES & RACKS

Like every piece of equipment in our Discovery™ Series Benches & Racks Line, the DBR0702 Vertical Knee-Up adds value to your facility by combining essential performance and durability with thoughtful design.

The Discovery Series Vertical Knee-Up supports a range of core and upper body exercises. The contoured elbow pads, hand grips, and back pad provide stability for knee-up exercises and an additional hand grip allows for dip exercises.

Strength equipment is a long-term investment and with the Discovery Series from Precor, you can make your strength purchase with confidence. With a full range of approachable and intuitive products that perform for exercisers of all ability levels and will withstand the test of time, the Discovery Series is the straightforward strength solution you've been looking for.

## Product Features

### 1. Open Frame

Secondary tubing and a large base footprint provide optimized stability in both core and upper-body exercise modalities.

### 2. Wear Guards

Oversized, bolt-on, non-skid wear guards help exercisers get in and out of the Vertical Knee-Up with confidence.

### 3. Pads and Hand Grips

The contoured elbow pads, hand grips, and back pad provide stability for knee-up exercises and additional hand grips allows for dip exercises.
