Product Features

1. Movement Arm Geometry

Precise positioning of the movement arm pivot and handles places the exerciser in the optimal position to effectively work major muscles of the upper back.

2. Chest Pad

The chest pad provides upper body stability and comfort, enhancing the effective load and challenging the back muscles.

3. Roller Pads and Footplate

Large, oversized roller pads and the non-skid footplate enhance lower body comfort and stability, enabling the exerciser to maintain proper positioning throughout the exercise.

4. Handles

Dual-position handles allow exercisers to easily vary the exercise position, enhancing the overall workout experience.
