1 PURPOSE

- 1.1 This procedure establishes the process for reporting incidents to Office for Human Research Protections (OHRP).
- 1.2 The process begins when a Reportable New Information application is received by a member of the IRB Office Staff and determined to meet the criteria required for reporting to OHRP.
- 1.3 The process ends when OHRP has determined the reporting of the event to be adequate.

2 REVISIONS FROM PREVIOUS VERSION

- 2.1 Includes the use of the [OHRP Incident Report Online Form](#) as required by OHRP.

3 POLICY

- 3.1 Any unanticipated problems involving risks to subjects or others; any serious or continuing non-compliance with Department of Health and Human Services (DHHS) regulations, 45 CFR Part 46, or determinations of the IRB approval; or any suspension or termination of IRB approval must be reported to OHRP promptly.
- 3.2 The reporting requirements apply to all non-exempt human subjects research that is (a) conducted or supported by HHS; (b) conducted or supported by any non-HHS federal department or agency that has adopted the Common Rule and is covered by a Federalwide Assurance; or (c) covered by a Federalwide Assurance regardless of funding
- 3.3 See *Addendum A* for a decision chart: What Incidents Should Be Reported to OHRP?
- 3.4 If the project is funded by a non-HHS federal agency or commercial/industry sponsor, other reporting requirements may apply in addition to OHRP.

4 DEFINITIONS

- 4.1 Reportable New Information: Information that becomes known during the course of a research study that will need to be reported to the IRB in a timely, meaningful way so that research participants can be protected from avoidable harms. This information may be Unanticipated Problems Involving Risk to Subjects or Others (UPIRSOs) and/or Non-compliance.
- 4.2 Unanticipated Problem Involving Risks to Subjects or Others: Any information that is (1) unanticipated and (2) indicates that subjects or others are at increased risk of harm.
 - Is unexpected (in terms of nature, severity, or frequency) given the procedures described in the research protocol documents (e.g., the IRB-approved research protocol and informed consent document) and the characteristics of the human subject population being studied.
 - Is related or possibly related to participation in the research (in this Instruction, possibly related means there is a reasonable possibility that the incident, experience, or outcome may have been caused by the procedures involved in the research).
 - Suggests that the research places human subjects or others at a greater risk of harm (including physical, psychological, economic, or social harm) than was previously known or recognized, even if no harm has actually occurred.

- 4.3 Serious Non-Compliance : failure to comply with regulations, university policies, or the requirements/determinations of the IRB, when, in the judgment of the institution, such failure substantially increases risks to subject welfare/safety, subject rights, or data integrity. Serious noncompliance may also involve compromising the effectiveness of UM’s human subject research protection program
- 4.4 Continuing Non-Compliance : A pattern of Non-Compliance that suggests the likelihood that, without intervention, instances of Non-Compliance will recur, a repeated unwillingness to comply, or a persistent lack of knowledge of how to comply
- 4.5 Suspension of IRB Approval : An action of the IRB, IRB designee, Institutional Official, or designee of the Institutional Official to temporarily or permanently withdraw IRB approval of some or all research procedures short of a Termination of IRB Approval. Suspended studies remain open and are subject to continuing review.
- 4.6 Termination of IRB Approval : An action of the IRB, IRB designee, Institutional Official, or designee of the Institutional Official to permanently withdraw IRB approval of all research procedures. Terminated studies are permanently closed and no longer require continuing review.

5 RESPONSIBILITIES

5.1 Specific responsibilities for IRB Office staff and IRB Chair are described throughout this document.

6 PROCEDURES

6.1 IRB Office Staff Responsibilities

- 6.1.1 Upon receipt of a RNI application, the assigned IRB Office Staff Member, a voting or alternate member of the IRB conducting a designated member review, will determine if the incident is:

- 6.1.2 If the incident falls into one or more the categories, the Staff Member should alert the IRB Chair that reporting to OHRP is possibly required.
- 6.1.3 The Staff Member should prepare and submit an [OHRP Incident Report Online Form](#) once the Chair confirms he agrees with the determination that the incident is reportable.
