I. PURPOSE
Private funds donated to support LSU Health Sciences Center at New Orleans (LSUHSC-NO) play a critical role in the institution’s ability to support student and faculty activities and advance vital physical and programmatic enhancements to the academic, research, and clinical care mission. Further, the donation of private funds helps build endowments to sustain the enterprise for future generations.

Private, nonprofit organizations that have affiliation agreements with the LSU Board of Supervisors to support LSUHSC-NO’s mission are key partners in fundraising; these organizations engage donors, both alumni and other supporters, through donations, partnerships, or other philanthropic arrangements that enhance programs, facilities, and research and educational opportunities offered by LSUHSC-NO. LSUHSC-NO and those affiliated supporting organizations work together to maintain excellent donor relations, establish new donor partnerships, and achieve the highest level of donor satisfaction while gaining the maximum level of benefit for the institution.

In order to ensure prudent, effective and ethical practices in the solicitation, receipt, and use of donations of private funds to support the mission of LSUHSC-NO, while ensuring coordination and reducing duplication or conflicting fundraising efforts, this policy establishes guidelines for all fundraising activities on behalf of or for the benefit of LSUHSC-NO or any component thereof.

This Policy applies to all employees of LSUHSC-NO, all employees of any affiliates authorized by the LSU Board of Supervisors pursuant to PM-48, and any volunteers attached to a fundraising project associated with any unit or component of LSUHSC-NO or one of its authorized affiliates.
