

## Office of Human Resource Management

LSU faculty and staff,

Please be aware of a few email campaigns targeting LSU employees posing as the state retirement systems and related financial advisors.

The most recent phishing attempts are emails that contain information regarding your job title and your department/supervisory organization, which may cause you to think the information is coming from a legitimate source. These emails come with a sense of urgency, asking that you request an appointment for a complimentary consultation and that spots fill up quickly.

**The state retirement systems will never contact you to schedule an appointment!** Please be advised as a LASERS, TRSL, or ORP participant, you must initiate setting up a meeting to discuss your retirement benefits. You should never provide any personal information to a third party unless you initiate the contact.

All communications regarding your retirement benefits will come directly from LASERS, TRSL, or your ORP provider (Corebridge, TIAA, or VOYA). Information on how to contact your respective retirement system or, ORP provider, or Supplemental Retirement provider (Corebridge, Fidelity, or TIAA) can be found [here](#).

If you have any questions on whether a communication is legitimate, please contact our office at [nohrmbenefits@lsuhsc.edu](mailto:nohrmbenefits@lsuhsc.edu) or report the phishing attempt directly to IT.

Office of Human Resource Management

433 Bolivar Street, 626

New Orleans, LA 70112
