DBR0610 Power Rack DISCOVERY™ SERIES BENCHES & RACKS

Like every piece of equipment in our Discovery™ Series Benches & Racks Line, the DBR0610 Power Rack adds value to your facility by combining essential performance and durability with thoughtful design.

The foundation of any facility, the Discovery Series Power Rack is the perfect tool for seasoned lifters and those new to strength training. The Power Rack's enhanced functional capability allows for the use of bands, chains, torso trainers, battle ropes, suspension fitness training, and more, along with traditional Power Rack exercises.

Strength equipment is a long-term investment and with the Discovery Series from Precor, you can make your strength purchase with confidence. With a full range of approachable and intuitive products that perform for exercisers of all ability levels and will withstand the test of time, the Discovery Series is the straightforward strength solution you've been looking for.

DBR0610 Power Rack

DISCOVERY™ SERIES

ITEM F7

Product Features

1. Storage

The ten weight storage horns neatly accommodate bumper plates. The Olympic Bar and functional apparatus storage is conveniently positioned to enhance accessibility.

2. Dual Chin-Up/Pull-Up Handles

Dual Chin-Up and Pull-Up Handles with step-up and weight assist band hooks allow for numerous chin-up and pull-up opportunities for a wide range of exercisers.

3. Secure & Sturdy

The heavy-duty, fully welded dual-pin system on the bar catches and safety rails provide maximum durability, stability and ease of adjustment. Both feature quick changeover, high impact, polyurethane covers and inserts to protect all wear surfaces from metal-on-metal contact, preserving the paint finish of the Power Rack.

4. Straight Bar

A smooth, straight Pull-Up/Chin-Up bar allows for kipping style pull-ups, chin-ups, and muscle-ups, as well as a convenient anchor point for suspension fitness training apparatuses.

5. Optional Band Pegs

Pegs allow for the use of loop style bands to add progressive resistance to barbell training movements.

6. Rubberized Step-Ups

Convenient steps allow for easier access to the Chin-Up/Pull-Up stations and are dipped to enhance durability and provide a slip-resistant surface. The step is angled to create a convenient Olympic Bar storage point and catch for performing deadlift exercises. The round gusset beneath the step-up allows for the anchoring of battle ropes.
