CHANCELLOR'S Notes

October 6, 2006

LSUHSC program featured by NCI

he Trim Kids (formerly Committed to Kids) pediatric weight management program, which was developed and tested at LSUHSC and PBRC, is now featured on the National Cancer Institute Research Tested Intervention Program website.

http://cancercontrol.cancer.gov/rtips/index.asp

Research-tested Intervention Programs (RTIPs) move science into programs for people. Because the programs on the website are sciencebased, the NCI says they may be particularly effective in serving the populations and communities in the settings in which they were originally tested.

Dr. Melinda Sothern is the Director of the Trim Kids program.

Save the date

The 2006 Chancellor's Lecture will be Friday, October 20 at 12:00 noon in Lecture Room B of MEB.

Dr. F. Charles Brunicardi of Baylor, will present "Molecular Biology in the Practice of Surgery".

LSUHSC celebrates 75th anniversary

V ore than a thousand faculty, students, staff, and families enjoyed • to defray the cost of the event. The our 75th Anniversary celebration. * LSU Medical Alumni Association The festivities included live music by was the other major sponsor. the Theresa Andersson Group, Sheriff Marlin Gusman supplied mouth-watering food, and great the tents. We're very grateful for company.
