

# CHANCELLOR'S Notes

Chancellor Larry Hollier, MD

March 19, 2010

## OLOL CEA approved

The Joint Legislative Committee on the Budget approved the Cooperative Endeavor

Agreement between LSU, Our Lady of the Lake, DHH and the Division of Administration today. This unique partnership represents an innovative model for our Baton Rouge-based programs with facilities and resources to strengthen our ability to produce the state's health professional workforce as we continue to provide quality care for the capitol region.

## Record number of LSUHSC graduates to remain in LA

Yesterday's Match was the best one in a decade for LSU Health Sciences Center and the State of Louisiana.

The percentage of our 165 senior medical students participating in the Match who will enter

residency programs in Louisiana is about 60%, and 100% of them

found positions through the Match and the Scramble. The fill rate in the LSU Health Sciences Center New Orleans residency programs continues to be

significantly higher than pre-Katrina and 100% of positions filled in the Match and the Scramble.

We are gratified by the commitment of the Jindal administration and the community to get the new University Medical Center built, which was a huge factor in this outcome.

Congratulations to our faculty, our senior medical students and their families!
