"More! More! More!" CINAHL Complete Is Here!

Have you heard the news? The LSUHSC Libraries now have access to the new and improved [CINAHL Complete!](#)

Recently, [EBSCO](#) released CINAHL Complete, the latest tool in nursing and allied health research since CINAHL Plus with Full Text, and we've got the hook-up. The Libraries' subscription is made available through [LOUIS](#), the Louisiana Library Network, which also provides access to a number of other resources.

CINAHL Complete offers comprehensive coverage of leading nursing and allied health research materials including 71 percent more full-text journals than available through CINAHL Plus and with mainly no embargos (meaning users will have online access to the most recent articles as they are published instead of suffering a 6-month or year-long waiting period).

The enhanced coverage spans a set of more than 1,300 full-text journals and indexing for over 5,400 journals. In addition, our Library's access includes in excess of 130 Evidence-Based Care Sheets, 170 Continuing Education Modules, and more! You will be glad to hear that the basic interface remains familiar and user-friendly with a complete list of subscriptions indexed under the "Publications" tab at the top of the screen.

LSUHSC-NO faculty, staff, and students can access CINAHL Complete on or [off campus](#). Many of the journals are listed in the Library Catalog, [INNOPAC](#). And all these journals are listed in our [Electronic Journals List](#) (EBSCO A to Z).

For assistance with this or any of the Library's resources, please contact a [Reference Librarian](#) at the Isché Library (504) 568-6102 / (504) 568-8339, or at the [Dental Library](#) (504) 941-8158. Or use the Library's [Chat](#) service.

LibGuide for Apple Computers and Devices Now Available

The [Library's collection of LibGuides](#) provides a place where you can find information ranging from resources relating to biostatistics to how to cite that reference using APA. These guides are put together and maintained by Library staff and include links to websites, resources, and other information relevant to that particular guide's topic.

A recent edition to the Library's roster of LibGuides is all about [Apple Computers and Devices](#). In addition to links for Apple resources, this guide provides information on how to configure your Apple mobile devices and computers to use the Citrix Web Interface, along with tips for connecting to campus wired and wireless networks. These hints as well as handouts are available in the tabs for desktop/laptop computers and mobile devices:

We are constantly looking to provide more helpful and useful information in this guide. If there is something you'd like to see included in the Apple Computers and Devices LibGuide, please feel free to [contact us](#).

Announcements

There is now a small self-service scanner in the Isché Library. It is located next to the print station on the 4th floor. All patrons with an LSUHSC userid and password are welcome to use it.

The Libraries' Mobile website has recently been re-vamped. When users on mobile devices open the Libraries' [main page](#), they are directed to a [page](#) that allows them to choose the regular website or an [optimized version](#).
