Receiving Items in PeopleSoft - Fluid

Receiving

Welcome to the PeopleSoft Receiving module! This module contains the tools needed to learn all the concepts and procedures involved in receiving items in PeopleSoft.

Goal

To have the skills and knowledge necessary to determine if a Purchase Order requires receipt in the PeopleSoft system prior to being processed for payment by Accounts Payable and to receive the Purchase Order in the PeopleSoft system.

Participant Objectives

At the end of this module, you will be able to:

1. Inquire on a Purchase Order (PO) to determine if a receipt must be entered.
2. Receive items.
3. Understand the procedures for receipt of over shipments.
4. Cancel a receipt line.
5. Reject (return) an item in PeopleSoft after it has been received (LSUNO only).
6. Receive inventory items.
7. Understand the procedures for receipt of over shipments for inventory items.
8. Cancel an inventory receipt line.

NOTE: Purchase Orders with the Receiving Required flag checked on the PO Line Details page must be received in the PeopleSoft system in order for the invoice to be processed for payment by Accounts Payable. Purchase Order lines with Receiving Required set as Do Not Receive must not be received in the PeopleSoft system, as this will cause problems with reconciling (i.e. closing) the Purchase Order.
The following will not be received in the PeopleSoft system:

1. Blanket Orders, Standing Orders or Release Orders (if set as Do Not Receive).
3. HCSD – CFMS Contracts (if set as Do Not Receive).
4. LSUNO and LSUSH - Direct Pay (Dues, fees, subscriptions, etc.)

The procedures in this guide must be performed in the PeopleSoft Production Database.

NOTE: The Business Unit ID(s) and PO number(s) provided in this manual are used for training purposes only. When working in Production, the Business Unit and PO number(s) entered will be applicable to the facility at which the end-user is employed.
Inquire on a Purchase Order to Determine if Receiving is Required

Topic Contents:

1. NavBar Menu navigation
   a. Purchasing > Purchase Orders > Review PO Information > Purchase Orders
2. Enter BU and PO #
3. Line Details
   a. Scroll down to Receiving Required field
      1) Required - must enter receipt into PeopleSoft
      2) Do Not - do not enter receipt in PeopleSoft
   b. Do not wait for invoice to receive items in system
      1) Receive from packing slip, bill of lading, etc.
      2) If invoice is included, note receipt number on it
   c. PO, Receipt, and Voucher must match to be paid by AP
4. Special Note on Receiving Required Notifications

<table>

</tr>
</tbody>
</table>
### Step 11.

The **Business Unit** should default into the Business Unit field. If it does not, enter it directly into the field or search for it using the **Look up Business Unit** button. Then contact your **Purchasing SuperUser** to ensure that your Business Unit defaults for future receipts.

**NOTE: The following is a list of the Business Units that may be entered into the Business Unit field, depending on the facility at which the end-user is employed.**

**HCSD:** LSU Health Hospitals  
**LAKMC:** Lallie A. Kemp Medical Center  
**LSUNO:** LSU Health - New Orleans  
**LSUSH:** LSU Health - Shreveport
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>12.</td>
<td>Enter the desired information into the <strong>PO ID</strong>: field. Enter &quot;00394683&quot;.</td>
</tr>
<tr>
<td>13.</td>
<td>Click the <strong>Search</strong> button.</td>
</tr>
</tbody>
</table>
### Step 14
Users will check **Line Details** for each line item to determine if the item needs to be received in the system. *Do not just check one or two items.* Depending on what is being ordered, you could have **multiple** items that will be **received** and **multiple** items that will **not** be **received**.

Click the **Line Details** button.

### Step 15
Click the **Down** scrollbar.
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>16.</td>
<td>The information to the right of <strong>Receiving Required</strong> indicates that receiving is required for this PO, therefore a receipt <strong>will be</strong> entered for this PO. If <strong>Do Not</strong> is displayed next to Receiving Required, then a receipt <strong>will not</strong> be entered for this PO. Click the <strong>Return</strong> button.</td>
</tr>
</tbody>
</table>

**Return**
Step | Action
--- | ---
17. | Select the **Lines Details** button for **Line 2**.
   
   Click the **Line Details** button.

18. | Click the **Down** scrollbar.

19. | Once again, the **Receiving Required** field is displaying **Required** indicating this item will be received in the PeopleSoft system.
   
   You will continue to check the **Line Details** for the remaining line items until all items have been checked for 'Receiving Required'.
   
   Click the **Return** button.
20. **NOTE:** The user should not wait for an invoice to enter the receipt in PeopleSoft. Items can be received using the packing slip, bill of lading, etc., if these documents are included in the packaging. However, if you should receive an invoice, either from the Supplier or from Accounts Payable (AP), the generated receipt number should be noted on the invoice and forwarded to AP.

The PO (generated by Purchasing), Voucher (generated by AP), and the Receipt (generated by the department/Receiving in PeopleSoft) are matched with the invoice. If the information contained in these three documents match, payment will be issued by AP. If the information does not match, the department will be contacted by AP. The invoice will be retained by AP once payment is issued.

21. **Special Note on Receiving Required Notifications**

In PeopleSoft Financials, a scheduled process reviews invoices to determine which invoices have been approved and which are still pending. Included in the scheduled process is a segment that identifies POs that have an invoice/voucher created in the system, and has one or more items on the PO marked as Receiving Required, but no receipt exists for the item. The process sends an email from Michele Gonzales to the PO Voucher Approver for that department indicating there is an issue.

From: Michele Gonzales  
Sent: Wednesday, May 7, 2023 5:11 AM  
To: <APPROVER>  
Subject: Receipt Notification

Purchase Order ### for Requisition ### has been vouchered but not yet received. Select the following link to receive the PO:  
<LINK TO PO RECEIPT>

In order to resolve this issue, the Approver should contact the Buyer to determine if Receiving Required is necessary for the PO. If not, then the Buyer will mark it as 'Do Not'. If it is required, the Approver and the Buyer will work together to provide the necessary paperwork to Receiving.

22. Click the Down scrollbar.

23. The Receiving Required check is complete and all line items must be received in the system.

Click the Return to Search button.

24. This completes Inquire on a Purchase Order to Determine if Receiving is Required.

End of Procedure.
Receiving Items in PeopleSoft

Enter a Receipt for a Partial Shipment

**Topic Contents:**

1. Two types of shipments
   a. Partial shipment
   b. Complete shipment
2. Navigate to Add/Update Receipts through the NavBar Menu
3. Receive **partial** shipment
   a. Check: Retrieve Open PO Schedules
   b. Select: No Order Qty
4. Over Shipments should not be received in PeopleSoft
   a. Call or email Buyer if over shipment is received from supplier
5. Only receive item(s) actually received from supplier. If you enter receipt for item((s) not received:
   a. Tying up portion of Department's budget
   b. At end of Fiscal Year, you are accountable for any items received but do not have an invoice
6. Select lines to receive
7. Enter Header Details
   a. Date item((s) received from supplier
   b. Bill of Lading, Packing Slip, etc. number entered in Bill of Lading field
8. Enter Receipt Qty for each item(s)
9. Verify Interface Receipt is unchecked
10. Save and note Receipt Number

<table>

</tr>
<tr>
<td></td>
<td>In this exercise, users will enter a <strong>partial</strong> shipment for <strong>PO 00392840</strong>. The shipment will contain:</td>
</tr>
<tr>
<td></td>
<td><strong>50 cases</strong> of Instant Cold Packs</td>
</tr>
<tr>
<td></td>
<td><strong>6 cases</strong> of Hand Sanitizer</td>
</tr>
</tbody>
</table>
### Step | Action
--- | ---
3. | Click the **NavBar** button.
4. | Click the **Menu** button.
5. | Click the **Down** scrollbar.
6. | Click the **Purchasing** menu.
7. | Click the **Receipts** menu.
8. | Click the **Add/Update Receipts** button.
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 9.   | Your **Business Unit** should **default** into the Business Unit field when working in Production. If it does not, enter it or select it by clicking the **Look up Business Unit** button to the right of the Business Unit field. Then **contact Purchasing** to ensure that your Business Unit defaults for future receipts.  

The **Receipt Number** should default as **NEXT** and will remain as defaulted.  

The **PO Receipt** box should default as checked and will remain as defaulted. |
| 10.  | Click the **Add** button. |

---

**Add/Update Receipts**

**Step**

Enter the desired information into the **ID** field. Enter "**00392840**".
12. Click the **Search** button to view the line item(s) associated with the PO.

   *NOTE: If you are unable to retrieve the PO items, the PO may not yet be dispatched. Contact Purchasing for assistance.*

13. **NOTE: When you receive a Partial Shipment of items, the following options must be selected:**

   *Check: Retrieve Open PO Schedules* - make this selection to only retrieve POs that have not been fully received

   *Select: No Order Qty* - signifies that the receiver must enter the actual quantity received
14. In this example you are viewing 1-4 of 4 lines, and all lines are visible in the panel. If more lines are retrieved than can be viewed in the panel, select the View All link to view all lines.

Click the Down scrollbar.

15. A partial shipment of items will be received. The items received in the shipment are:

50 cases of Instant Cold Packs
6 cases of Hand Sanitizer

You will select the lines associated with these items. There are no items for the other two lines of PO included in the shipment.
### Step 16

When preparing to enter a **Receipt** from an Invoice, Bill of Lading, Packing Slip, etc., the user must first review the **PO Qty** and the **Prior Receipt** fields for each line you will be receiving items for, prior to attempting to receive the items in PeopleSoft.

If you find that you have received **more items than ordered** for a line item in a shipment, you **will not** receive the PO line in question. You **must** contact your **Buyer** via email or telephone for further assistance.

*See the 'Receipt of Over Shipment for Items' topic for additional information on over shipments.*

### Step 17

**NOTE:** It is imperative the user confirms that only the items actually received from the supplier - and are not an over shipment - are checked. If the user enters a receipt for an items in PeopleSoft without actually receiving the item from the supplier, the following will occur:

1. You will be tying up a portion of your department's budget; and

2. At the end of the Fiscal Year, you will be accountable for any items received in PeopleSoft during the year which do not have an invoice.

### Step 18

Click the **Line 2 - Instant Cold Pack** option.

**NOTE:** The Select All link may be clicked to select all of the PO lines at once, rather than checking each line received one at a time. The Clear All box can be checked to uncheck all previously selected lines.

### Step 19

Click the **Line 5 - Hand Sanitizer** option.

### Step 20

Click the **OK** button.
Step | Action
--- | ---
21. | The **Maintain Receipts** page displays. In the top section of the page, the following fields will default as shown:

- **Business Unit** = LSUNO
- **Receipt ID** = NEXT
- **Receipt Status** = Open

22. | You will **first** enter information on the **Header Details** page before entering Receipt Qty for the items received.

Click in the **Header Details** field.

23. | Users should receive the item(s) in PeopleSoft **upon receipt**, or as soon as possible, since the **Supplier** usually **mails** the **invoice** on the same date the item is shipped. The user should receive the item in PeopleSoft from the packing slip, bill of lading, etc. (if any of these documents are received with the item(s)). The user should **not await** receipt of the **invoice** to enter the receipt in the system. if any other documents listed above are received with the item from the Supplier.

24. | The current date defaults on the Header Details page. The user will enter the date that the item(s) was **actually received** by the department, **not** the date you are **entering** into the system unless it is the same day.

Click the **Calendar Receipt Date** button.

### Training Guide

**Receiving Items in PeopleSoft - Fluid**

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>15.</td>
<td>When preparing to enter a Receipt from an Invoice, Bill of Lading, Packing Slip, etc., the user <strong>must first</strong> view the <strong>PO Qty</strong> and the <strong>Prior Receipt</strong> quantity for each PO line before attempting to receive the PO line in PeopleSoft. This will <strong>prevent</strong> the user from inadvertently <strong>receiving</strong> an <strong>over shipment</strong>.</td>
</tr>
</tbody>
</table>

If the PO line is found to be an **over shipment**, the user **should not** receive the PO line in PeopleSoft. The user **must** contact their **Buyer** via email or telephone for further assistance.

*See the 'Receipt of Over Shipment of an Item(s)' topic for further details on handling over shipments.*

| 16.  | **NOTE:** It is imperative the user confirms that only the items actually received from the supplier - and are not an over shipment - are checked. If the user enters a receipt for an items in PeopleSoft without actually receiving the item from the supplier, the following will occur: |

1. You will be tying up a portion of your department's budget; and

2. At the end of the Fiscal Year, you will be accountable for any items received in PeopleSoft during the year which do not have an invoice. |

| 17.  | Click the **Coleman Fuel Propane** option. |

| 18.  | Click the **OK** button. |

| 19.  | The **Maintain Receipts** page displays. In the top section of the page, the following fields will default as shown: |

- **Business Unit** = LSUNO
- **Receipt ID** = NEXT
- **Receipt Status** = Open |

| 20.  | Click the **Header Details** link. |

| 21.  | Users should receive the item(s) in PeopleSoft **upon receipt**, or as soon as possible, since the **Supplier** usually **mails** the **invoice** on the same date the item is shipped. The user should receive the item in PeopleSoft from the packing slip, bill of lading, etc. (if any of these documents are received with the item(s)). The user should **not await** receipt of the **invoice** to enter the receipt in the system. if any other documents listed above are received with the item from the Supplier. |

| 22.  | Enter the date the item(s) were **actually received** in the department, **not** the date you are **entering** the item(s) into the system unless it is the same day. |

Enter the desired information into the **Receipt Date** field. Enter "060923". |
## Step 23: Bill of Lading

The **Bill of Lading** field is a **free-form text** field. Therefore, it may contain numbers and/or letters. The user may enter any number that s/he wishes to attach to the Receipt (e.g., Bill of Lading number or Packing Slip number, etc.) into the Bill of Lading field. The number entered into the Bill of Lading field can be used to **retrieve the Receipt** if needed.

*NOTE: The Pack Slip field is not used since it does not have a search feature (i.e., the Pack Slip field will not appear in the Search page when attempting to retrieve Receipts entered into the system).*

## Step 24: Enter the Bill of Lading number

Enter the Bill of Lading number, Packing Slip number, etc. into the Bill of Lading field. **Do not** enter it into the Pack Slip field, since it does **not** have search capabilities.

Enter the desired information into the **Bill of Lading** field. Enter "6112554".

## Step 25: Click the Down scrollbar

Click the **Down** scrollbar.

## Step 26: Click the OK button

Click the **OK** button.

## Step 27: By selecting Ordered Qty

By selecting **Ordered Qty**, the system defaulted the **PO quantity** into the **Receipt Qty**. The user may override the quantity, if needed.

*NOTE: Verify that the Interface Receipt option is unchecked. This receipt process will run several times during the day.*

## Step 28: Click the Save button

Click the **Save** button.

## Step 29: The system has assigned a Receipt ID number

The system has assigned a **Receipt ID** number. You should **record** the Receipt number at this time for future reference of this PO.

Record your **Receipt Number**: ________________

## Step 30: This completes Enter a Receipt for a Complete Shipment

**End of Procedure.**
Receipt of Over Shipment of an Item(s)

**Topic Contents:**

1. Two types of shipments
   a. Partial shipment
   b. Complete shipment
2. Navigate to Add/Update Receipts through the NavBar Menu
3. Receive partial shipment
   a. **Check:** Retrieve Open PO Schedules
   b. **Select:** No Order Qty
4. Select line(s) to receive
5. Enter quantity received for each item
   a. Include over shipment in quantity for Instant Cold Packs
6. Warning message displays stating over 10% of cost
   a. **Do not SAVE over shipment of items**
   b. Contact your Buyer for further assistance

</tr>
</tbody>
</table>
## Step 9

**Action**

Your **Business Unit** should **default** into the Business Unit field when working in Production. If it does not, enter it or select it by clicking the **Look up Business Unit** button to the right of the Business Unit field. Then **contact Purchasing** to ensure that your Business Unit defaults for future receipts.

The **Receipt Number** should default as **NEXT** and will remain as defaulted.

The **PO Receipt** box should default as checked and will remain as defaulted.

Click the **Add** button.

![Add Button](image1)

## Step 10

**Action**

Enter the desired information into the **ID** field. Enter "**00392840**".

**NOTE:** If you are unable to retrieve the PO lines, the PO may not yet be dispatched. **Contact Purchasing for assistance.**

![Search Button](image2)

## Step 11

**Action**

Click the **Search** button to view the line item(s) associated with the PO.
### Step 12

Click the **Down** scrollbar.

### Step 13

**NOTE:** When you receive a Partial Shipment of items, the following options must be selected:

- **Check:** Retrieve Open PO Schedules - make this selection to only retrieve POs that have not been fully received
- **Select:** No Order Qty - signifies that the receiver must enter the actual quantity received

### Step 14

A **partial shipment** of items will be received. The items received in the shipment are:

- **125 cases of Instant Cold Packs**

You will select the line associated with these items. There are no items for the other two lines of PO included in the shipment.
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 15.  | When preparing to enter a **Receipt** from an Invoice, Bill of Lading, Packing Slip, etc., the user must first review the **PO Qty** and the **Prior Receipt** fields for each line you will be receiving items for, **prior** to attempting to receive the items in PeopleSoft. If you find that you have received **more items than ordered** for a line item in a shipment, you **will not** receive the PO line in question. You **must** contact your **Buyer** via email or telephone for further assistance.  

*See the 'Receipt of Over Shipment of an Item(s)' topic for additional information on over shipments.* |
| 16.  | **NOTE:** It is imperative the user confirms that only the items actually received from the supplier - and are not an over shipment - are checked. If the user enters a receipt for an items in PeopleSoft without actually receiving the item from the supplier, the following will occur:  

1. You will be tying up a portion of your department's budget; and  
2. At the end of the Fiscal Year, you will be accountable for any items received in PeopleSoft during the year which do not have an invoice. |
| 17.  | Click the **Line 1 Instant Cold Pack** option.  

*NOTE: The Select All link may be clicked to select all of the PO lines at once, rather than checking each line received one at a time. The Clear All box can be checked to uncheck all previously selected lines.* |
| 18.  | Click the **OK** button.  

[OK]  

| 19.  | The **Maintain Receipts** page displays. In the top section of the page, the following fields will default as shown:  

- **Business Unit** = LSUNO  
- **Receipt ID** = NEXT  
- **Receipt Status** = Open |
### Step 20
You will first enter information on the **Header Details** page before entering Receipt Qty for the items received.

Click in the **Header Details** field.

### Step 21
The current date defaults on the Header Details page. *The user will enter the date that the item(s) is actually received by the department, not the date it is being entered into the PeopleSoft system.*

### Step 22
Enter the desired information into the **Receipt Date** field. Enter "06122023".

### Step 23
Users should receive the item(s) in PeopleSoft upon receipt, or as soon as possible, since the Supplier usually mails the invoice on the same date the item(s) shipped. Item(s) will be received from the bill of lading, packing slip, etc. (if any of these documents are received with the item(s)). The user should not await receipt of the invoice to enter the Receipt in PeopleSoft, if any of the other documents listed above are received with the item(s) from the supplier.
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>24.</td>
<td><strong>Bill of Lading</strong>&lt;br&gt;&lt;br&gt;The <strong>Bill of Lading</strong> field is a free-form text field. Therefore, it may contain numbers and/or letters. The user may enter any number that s/he wishes to attach to the Receipt (e.g., Bill of Lading number or Packing Slip number, etc.) into the Bill of Lading field. The number entered into the Bill of Lading field can be used to retrieve the Receipt if needed. &lt;br&gt;&lt;br&gt;<em>NOTE: The Pack Slip field is not used since it does not have a search feature (i.e., the Pack Slip field will not appear in the Search page when attempting to retrieve Receipts entered into the system).</em></td>
</tr>
<tr>
<td>25.</td>
<td>Enter the desired information into the <strong>Bill of Lading</strong> field. Enter &quot;MI85637&quot;.</td>
</tr>
<tr>
<td>26.</td>
<td>Click the <strong>Down</strong> scrollbar.</td>
</tr>
<tr>
<td>27.</td>
<td>Click the <strong>OK</strong> button.</td>
</tr>
</tbody>
</table>
### Step 28
Enter the number of cases of Instant Cold Packs received. In this example, you will receive **125 cases**.

Enter the desired information into the **Receipt Qty** field. Enter "**125**".

### Step 29
Verify that the **Interface Receipt** box is unchecked. If it is checked, click the checkbox to de-select it.

*NOTE: The receipt process is scheduled to run periodically throughout the day.*

### Step 30
Click the **Save** button.
### Step 31

A message displays when the user attempts to:

1. Receive more than the quantity listed on the PO line and the over shipment is in excess of Louisiana State acceptable overage of 10%

2. Receive the item more than once (e.g., if a partial shipment of the item was previously entered and the receiver attempts to enter more than the remaining balance).

### Step 32

If the over shipment is needed, the user should refer to the information provided below to determine how to proceed with receiving the over shipped item into PeopleSoft.

Under Louisiana State law, the user may accept up to 10% over the total cost of the item, without re-bidding the item. However, a Change Order must be issued by Purchasing prior to the over shipped item being received into PeopleSoft.

### Step 33

**NOTE:** If the overage is below the 10% limit, the warning message will not display. Even if the warning message does not display due to the overage being under the 10% limit, and the user is able to receive the over shipment into PeopleSoft, Accounts Payable will have problems matching and paying the invoice until further action is taken. This will cause a delay in the payment of the invoice.

Therefore, the user must not attempt to receive any over shipment in PeopleSoft, prior to contacting his/her Buyer for further assistance.

Receiving Inventory Items in PeopleSoft

Enter a Receipt for an Inventory Item

Topic Contents:

1. Navigate to Add/Update Receipts using NavBar Menu
2. Two types of shipments:
   a. Partial
   b. Complete
3. Receive complete shipment
   a. Uncheck: Retrieve Open PO Schedules
   b. Select: Ordered Qty
4. Over Shipments should not be received in PeopleSoft
   a. Call or email Buyer if over shipment is received from supplier
5. Only receive item(s) actually received from supplier. If you enter receipt for item((s) not received:
   a. Tying up portion of Department's budget
   b. At end of Fiscal Year, you are accountable for any items received but do not have an invoice
6. Select line(s) to receive
7. Enter Header Details
   a. Date item(s) received from supplier
   b. Bill of Lading, Packing Slip, etc. number entered in Bill of Lading field
8. Verify Receipt Qty is same as Putaway Qty
   a. Check Receipt Qty on Details page to view Recv UOM and Std UOM
   b. Verify Putaway Qty using Pending link in INV Status column
   c. If Putaway Qty is incorrect, do not save and open Help Desk ticket
9. Verify Interface Receipt is unchecked
10. Save and note Receipt Number

7. Click the **Add/Update Receipts** button.

8. Your **Business Unit** should **default** into the Business Unit field when working in Production. If it does not, enter it or select it by clicking the **Look up Business Unit** button to the right of the Business Unit field. Then **contact Purchasing** to ensure that your Business Unit defaults for future receipts.

   The **Receipt Number** should default as **NEXT** and will remain as defaulted.

   The **PO Receipt** box should default as checked and will remain as defaulted.

9. Click the **Add** button.

10. Enter the desired information into the **ID** field. Enter **00050280**.
## Training Guide
### Receiving Items in PeopleSoft - Fluid

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 11.  | Click the **Search** button to view the line item(s) associated with the PO.  

*NOTE: If you are unable to retrieve the PO lines, the PO may not yet be dispatched. Contact Purchasing for assistance.* |
| 12.  | Click the **Down** scrollbar. |
| 13.  | There are **two types** of shipments that can be received in PeopleSoft:  

1. **Partial Shipment** - This is when the line items on a multiple line PO are received in different shipments, or the entire quantity is **not** received for either a single line or multi-line PO.  

2. **Complete Shipments** - This is when all of the line items - whether it is a single line or multi-line PO - are received in one shipment. |
| 14.  | In this example you are receiving a **complete** shipment of **all items**. When you receive a **Complete Shipment** of items, the following options must be selected:  

Uncheck: **Retrieve Open PO Schedules** - retrieve POs that **have and have not** been fully received in the system  

Select: **Ordered Qty** - automatically makes the received quantity the PO quantity  

*NOTE: It is **not** recommended that PO Remaining Qty be selected.* |
15. In this example, you will enter a complete shipment, so deselect the Retrieve Open PO Schedules option.

Uncheck the Retrieve Open PO Schedules option.

16. Click the Ordered Qty option.

17. When preparing to enter a Receipt from an Invoice, Bill of Lading, Packing Slip, etc., the user must first view the PO Qty and the Prior Receipt quantity for each PO line before attempting to receive the PO line in PeopleSoft. This will prevent the user from inadvertently receiving an over shipment.

If the PO line is found to be an over shipment, the user should not receive the PO line in PeopleSoft. The user must contact their Buyer via email or telephone for further assistance.

See the 'Receipt of Over Shipment of an Item(s)' topic for further details on handling over shipments.
### Training Guide
Receiving Items in PeopleSoft - Fluid

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 18.  | **NOTE:** It is imperative the user confirms that only the items actually received from the supplier - and are not an over shipment - are checked. If the user enters a receipt for an items in PeopleSoft without actually receiving the item from the supplier, the following will occur:  
  1. You will be tying up a portion of your department's budget; and  
  2. At the end of the Fiscal Year, you will be accountable for any items received in PeopleSoft during the year which do not have an invoice. |
| 19.  | In this example, you are receiving a complete shipment, so all line items will be checked.  
Click in the **Select All** field.  
**Select All** |
| 20.  | Click the **OK** button.  
**OK** |
| 21.  | Click the **Header Details** link.  
**Header Details** |
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>22.</td>
<td>Users should receive the item(s) in PeopleSoft <strong>upon receipt</strong>, or as soon as possible, since the <strong>Supplier</strong> usually <strong>mails</strong> the <strong>invoice</strong> on the same date the item is shipped. The user should receive the item in PeopleSoft from the packing slip, bill of lading, etc. (if any of these documents are received with the item(s)). The user should <strong>not wait</strong> receipt of the <strong>invoice</strong> to enter the receipt in the system. If any other documents listed above are received with the item from the Supplier.</td>
</tr>
<tr>
<td>23.</td>
<td>Enter the date the item(s) was <strong>actually received</strong> in the department, <strong>not</strong> the date you are <strong>entering</strong> the item(s) into the system unless it is the same day.</td>
</tr>
<tr>
<td></td>
<td>Click the <strong>Calendar Receipt Date</strong> button.</td>
</tr>
<tr>
<td>24.</td>
<td>Click the <strong>21st</strong> button.</td>
</tr>
</tbody>
</table>
### Step 25.

**Bill of Lading**

The Bill of Lading field is a free-form text field. Therefore, it may contain numbers and/or letters. The user may enter any number that s/he wishes to attach to the Receipt (e.g., Bill of Lading number or Packing Slip number, etc.) into the Bill of Lading field. The number entered into the Bill of Lading field can be used to retrieve the Receipt if needed.

**NOTE:** The Pack Slip field is not used since it does not have a search feature (i.e., the Pack Slip field will not appear in the Search page when attempting to retrieve Receipts entered into the system).

### Step 26.

Enter the desired information into the Bill of Lading field. Enter "753159".

### Step 27.

Click the **Down** scrollbar.

### Step 28.

Click the **OK** button.
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 29.  | By selecting **Ordered Qty**, the system defaulted the **PO quantity** into the **Receipt Qty**. The user may override the quantity if needed.  

**NOTE:** Verify that the Interface Receipt option is **unchecked**. This receipt process will run several times during the day. |
| 30.  | There are **two quantity types** used when entering inventory items into the system:  

- **Receipt Quantity** – the total item quantity received from a supplier  
- **Putaway Quantity** – the total item quantity to be added to stock quantities  

**Receipt Quantity** can be viewed in the **Receipt Qty** column. The **Putaway Quantity** can be viewed on the line **Details** page or on the **Inventory Putaway Information** page for each line. |
<p>| 31.  | Occasionally, the user may find the Receipt Qty and the Putaway Quantity do <strong>not</strong> appear to <strong>match</strong>. For example, Line 2 Urinalysis Specimen #8741 has a Receipt Qty of 4 cases. The Putaway Quantity for this item is 2,000. So how do you reconcile this discrepancy? |</p>
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>32.</td>
<td>Click the <strong>Line 2 Details</strong> button.</td>
</tr>
<tr>
<td>Step</td>
<td>Action</td>
</tr>
<tr>
<td>------</td>
<td>--------</td>
</tr>
<tr>
<td>33.</td>
<td>Click the <strong>Expand Receipt Quantity</strong> button.</td>
</tr>
</tbody>
</table>

![Image of PeopleSoft interface showing the Expand Receipt Quantity button]
34. Notice that the Recv UOM = CS and the Receipt Qty = 4. However, The Std UOM = Each and the Receipt Qty = 2,000. Also, the Convert to PO = 1 and the Convert to Stock = 500. So this information tells us there are 500 items per case times 4 cases is 2,000 items. So at first the quantities do not appear to match, but in actuality they do.

Click the Collapse All link.

35. Click the Return button.

36. How to look up the Putaway Quantity for each line will now be demonstrated.

Click the Right scrollbar.
37. **NOTE:** If Pending displays in the INV Status column, save the Receipt. If Pending does not display in the INV Status column, do not save the receipt. Contact Purchasing so that corrections can be made to the PO.

Click the **Line 1 Pending** link.
### Training Guide
**Receiving Items in PeopleSoft - Fluid**

</tr>
</tbody>
</table>
| 19. | The **Maintain Receipts** page displays. In the top section of the page, the following fields will default as shown:  

   - **Business Unit** = LSUNO  
   - **Receipt ID** = NEXT  
   - **Receipt Status** = Open |
| 20. | You will **first** enter information on the **Header Details** page before entering Receipt Qty for the items received.  

   - Click in the **Header Details** field. |
| 21. | Users should receive the item(s) in PeopleSoft upon receipt, or as soon as possible, since the **Supplier** usually mails the **invoice** on the same date the item is shipped. The user should receive the item in PeopleSoft from the packing slip, bill of lading, etc. (if any of these documents are received with the item(s)). The user should **not await** receipt of the **invoice** to enter the receipt in the system. if any other documents listed above are received with the item from the **Supplier**. |
| 22. | Click the **Calendar Receipt Date** button. |
| 23. | Click the desired date. |
| 24. | **Bill of Lading**  

   - The **Bill of Lading** field is a free-form text field. Therefore, it may contain numbers and/or letters. The user may enter any number that s/he wishes to attach to the Receipt (e.g., Bill of Lading number or Packing Slip number, etc.) into the Bill of Lading field. The number entered into the Bill of Lading field can be used to retrieve the Receipt if needed.  

   - **NOTE:** The Pack Slip field is not used since it does not have a search feature (i.e., the Pack Slip field will not appear in the Search page when attempting to retrieve Receipts entered into the system). |
| 25. | Enter the Bill of Lading number, Packing Slip number, etc. into the Bill of Lading field. **Do not** enter it into the **Pack Slip** field, since it does **not** have search capabilities.  

   - Enter the desired information into the **Bill of Lading** field. Enter "654456". |
| 26. | Click the **Down** scrollbar. |
| 27. | Click the **OK** button. |
### Step 28
By selecting **Ordered Qty**, the system defaulted the **PO quantity** into the **Receipt Qty**. The user may override the quantity, if needed.

**NOTE:** Verify that the **Interface Receipt** option is **unchecked**. This receipt process will run several times during the day.

### Step 29
Enter the desired information into the **Receipt Qty** field. Enter "35".

### Step 30
Verify that the **Interface Receipt** box is unchecked. If it is checked, click the checkbox to de-select it.

**NOTE:** The receipt process is scheduled to run periodically throughout the day.

### Step 31
Click the **Save** button.
### Step 32
A message displays when the user attempts to:

1. Receive more than the quantity listed on the PO line and the over shipment is in excess of Louisiana State acceptable overage of 10%.

2. Receive the item more than once (e.g., if a partial shipment of the item was previously entered and the receiver attempts to enter more than the remaining balance).

### Step 33
If the over shipment is needed, the user should refer to the information provided below to determine how to proceed with receiving the over shipped item into PeopleSoft.

Under Louisiana State law, the user may accept up to 10% over the total cost of the item, without re-bidding the item. However, a Change Order must be issued by Purchasing prior to the over shipped item being received into PeopleSoft.

### Step 34
**NOTE:** If the overage is below the 10% limit, the warning message will not display. Even if the warning message does not display due to the overage being under the 10% limit, and the user is able to receive the over shipment into PeopleSoft, Accounts Payable will have problems matching and paying the invoice until further action is taken. This will cause a delay in the payment of the Invoice.

Therefore, the user must not attempt to receive any over shipment in PeopleSoft, prior to contacting his/her Buyer for further assistance.
