Managing Shipments 9.2

Welcome to the PeopleSoft 9.2 Managing Shipments module! This module contains the tools needed to learn all the concepts and procedures involved in managing shipments.

Goal
To have the skills and knowledge necessary to determine if a Purchase Order requires receipt in the PeopleSoft system prior to being processed for payment by Accounts Payable and to receive the Purchase Order in the PeopleSoft system.

Participant Objectives
At the end of this module, you will be able to:
1. Inquire on a Purchase Order (PO) to determine if a receipt must be entered.
2. Receive inventory items.
3. Receive non-inventory items.
4. Understand the procedures for receipt of over shipments.
5. Cancel a non-inventory receipt line.
6. Cancel an inventory receipt line.
7. Reject (return) an item in PeopleSoft after it has been received (LSUNO only).

NOTE: Purchase Orders with the Receiving Required flag on the PO Line Details page checked, the item **must** be received in the PeopleSoft system in order for the invoice to be processed for payment by Accounts Payable. Purchase Order lines with Receiving Required set as Do Not Receive **must not** be received in the PeopleSoft system, as this will cause problems with reconciling (i.e. closing) the Purchase Order.

The following **will not** be received in the PeopleSoft system:
1. Blanket Orders, Standing Orders or Release Orders (if set as Do Not Receive).
3. HCSD–CFMS Contracts (if set as Do Not Receive).
4. LSUNO and LSUSH - Direct Pay (Dues, fees, subscriptions, etc.)

The procedures in this guide **must** be performed in the PeopleSoft Production Database.

NOTE: The Business Unit ID(s) and PO number(s) provided in this manual are used for training purposes only. When working in Production, the Business Unit and PO number(s) entered will be applicable to the facility at which the end-user is employed.
Inquire on a Purchase Order to Determine if Receiving is Required

Procedure

In this topic you will learn how to Inquire on a Purchase Order to Determine if Receiving is Required.

NOTE: You must determine if an item (invoice) needs to be received in the PeopleSoft system in order for it to be processed for payment by Accounts Payable. Your goal is to determine if receiving is required for the Purchase Order associated with that item.

| 5.   | **Business Unit**  
Your Business Unit should default into the Business Unit field when working in Production. If the Business Unit does not default, enter it or select it by clicking the **Lookup Business Unit** button to the right of the Business Unit field. Then contact your Purchasing Superuser to ensure that your Business Unit defaults for future receipts. |
| 6.   | Click the **Add** button. |
| 7.   | Enter the desired information into the **ID** field. Enter "00037168". |
| 8.   | Click the **Search** button. |
| 9.   | If you are unable to retrieve the Purchase Order lines, the Purchase Order may not yet be dispatched. Contact Purchasing for assistance if this occurs.  
**NOTE:** You may click View All or use the scroll area to view additional PO Lines. |
| 10.  | There are two types of shipments:  
**Partial Shipments** - This is when the line items on a multiple line PO are received on different shipments, or the entire quantity is not received.  
**Complete Shipments** - This is when all of the line items, whether it is a single line item PO or a multiple line item PO, are received in one shipment. |
| 11.  | **Receipt Qty Options**  
If this is a Receipt for a **Partial Shipment**:  
**Check:** Retrieve Open PO Schedules and  
**Select:** No Order Qty |
| 12.  | **Receipt Qty Options** (continued)  
If this is a Receipt for a **Complete Shipment**:  
**Uncheck:** Retrieve Open PO Schedules and  
**Select:** Ordered Qty  
**NOTE:** It is not recommended that PO Remaining Qty be selected. |
| 13.  | Occasionally, the user may attempt to receive more than the quantity listed on the PO (i.e., over shipments), or to receive the item more than once (e.g., if a Partial Shipment of the item was previously entered and the Receiver attempts to enter more than the remaining balance).  
When preparing to enter a Receipt from an Invoice, Packing Slip, Bill of Lading, etc., the user must first view the **PO Qty** and the **Prior Receipt** quantity for each PO Line before attempting to receive the PO Line in PeopleSoft. This will prevent the user from inadvertently receiving an over shipment. |
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 14.  | If a PO Line is found to be an over shipment, the user **should not** receive the PO Line in question in PeopleSoft. The user **must** contact their Buyer via email or telephone for further assistance.  

*See the "Receipt of Over-Shipment for an Inventory Item" topic for further details on handling over shipments.* |
| 15.  | The **Select All** link allows the user to select all of the PO lines at once, rather than checking each line received, one at a time.  
The **Clear All** link clears all lines checked. |
| 16.  | **NOTE:** If this is a Partial Shipment in which most of the PO line items have been received on one shipment, you may opt to select all of the PO lines by clicking the **Select All** link. However, before proceeding to the next step, it is **imperative** that the user confirm that only the lines actually received from the supplier (and are not an over shipped item) are checked, as shown in this example. If the user enters a receipt for an item in PeopleSoft without actually receiving the item from the supplier, the following will occur:  

1. **You will be tying up a portion of your Department’s budget, and**  
2. **At the end of the Fiscal Year, you will be accountable for any items received in PeopleSoft during the year which does not have an Invoice.** |
| 17.  | Click the **Retrieve Open PO Schedules** option to uncheck it.  
[✔️ Retrieve Open PO Schedules] |
| 18.  | Click the **Ordered Qty** option.  
[☐ Ordered Qty] |
| 19.  | Click the **Select All** link.  
[Select All] |
| 20.  | Click the **OK** button.  
[OK] |
| 21.  | The **Maintain Receipts** page displays.  

*NOTE: The current date will default into the Header Details page as the receipt date, but can be changed if needed. The user will enter the date that the item(s) is actually received - not the date it is being entered into the PeopleSoft system. Click the Header Details link, as shown in the steps that follow, to change the receipt date.* |
<p>| 22.  | Users should receive the item in PeopleSoft upon receipt, or as soon as possible, since the Supplier usually mails the invoice on the same date the item is shipped. The user should receive the item in PeopleSoft from the packing slip, bill of lading, etc. (if any of these documents are received with the item). The user <strong>should not</strong> await receipt of the invoice to enter the Receipt in PeopleSoft, if any of the other documents listed above are received with the item from the Supplier. |</p>
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 23.  | Verify that the **Interface Receipt** option is unchecked. If it is not unchecked, click the checkbox to de-select it.  

**NOTE:** *This receipt process will be scheduled to run periodically throughout the day.* |
| 24.  | Click the **Header Details** link to adjust the Receipt Date if required.  

[Header Details] |
| 25.  | Enter the desired information into the **Receipt Date** field. Enter "040116". |

**Receipt Date**  

Enter a date by one of the following methods:  
1. To view the calendar and select the date, click the **Calendar** icon next to the **Receipt Date** field. Once you have selected the month and year (if necessary), click on the day to select it.  

2. Enter the date (mm/dd/yy) – PeopleSoft requires that **6 digits** be entered, but the user **does not** have to type the slashes (e.g. 120115). The slashes will populate once the user presses the **Refresh** button or moves to another page (this includes actually navigating to another page or clicking the search button on another field on the same page, since searching on a field actually brings you to another page). |

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 26.  | **Bill of Lading Field**  

The Bill of Lading field is a free-form text field. Therefore, it may contain numbers and/or letters. The user may enter any number that he/she wishes to attach to the **Receipt** (e.g. Bill of Lading number or Packing Slip number, etc.) into the Bill of Lading field. However, the number entered into the Bill of Lading field can be used to retrieve the Receipt entered into PeopleSoft, if needed.  

**NOTE:** *The Packing Slip field is not used since it does not have a search feature (i.e. the Packing Slip field will not appear in the Search page when attempting to retrieve Receipts entered into the PeopleSoft system).* |
| 27.  | Enter the desired information into the **Bill of Lading** field. Enter "58641". |
| 28.  | Click the **OK** button.  

[OK] |
<p>| 29.  | <strong>NOTE:</strong> <em>When receiving a Complete Shipment, the quantity will default into the Receipt Qty field. The user can override the quantity, if needed.</em> |</p>

| 14.  | If a PO Line is found to be an over shipment, the user **should not** receive the PO Line in question in PeopleSoft. The user **must** contact their Buyer via email or telephone for further assistance.  
   
   See the "Receipt of Over-Shipment for an Inventory Item" topic for further details on handling over shipments. |
| 15.  | The **Select All** link allows the user to select **all** of the PO lines at once, rather than checking each line received, one at a time.  
   
   The **Clear All** link clears all lines checked. |
| 16.  | **NOTE:** If this is a Partial Shipment in which most of the PO line items have been received on one shipment, you may opt to select all of the PO lines, at one time, by clicking the Select All link. However, before proceeding to the next step, it is imperative that the user confirm that only the lines actually received from the supplier (and are not an over shipped item) are checked, as shown in this example. If the user enters a receipt for an item in PeopleSoft without actually receiving the item from the supplier, the following will occur:  
   
   1. You will be tying up a portion of your Department’s budget, and  
   2. At the end of the Fiscal Year, you will be accountable for any items received in PeopleSoft during the year which does not have an Invoice. |
| 17.  | Click the **Retrieve Open PO Schedules** option to uncheck it. |
| 18.  | Click the **Ordered Qty** option. |
| 19.  | Click the **Line 1 Sel** option. |
| 20.  | Click the **OK** button. |
| 21.  | The **Maintain Receipts** page displays.  
   
   **NOTE:** The current date will default in the page, but can be changed, if required by clicking the Header Details link, as shown in the steps that follow. The user will enter the date that the item(s) is actually received - not the date it is being entered into the PeopleSoft system. |
| 22.  | Users should receive the item in PeopleSoft upon receipt, or as soon as possible, since the Supplier usually mails the invoice on the same date the item is shipped. The user should receive the item in PeopleSoft from the packing slip, bill of lading, etc. (if any of these documents are received with the item). The user **should not** await receipt of the invoice to enter the Receipt in PeopleSoft, if any of the other documents listed above are received with the item from the Supplier. |
### Step 23
Verify that the **Interface Receipt** option is unchecked. If it is not unchecked, click the checkbox to de-select it.

**NOTE:** This receipt process will be scheduled to run periodically throughout the day.

### Step 24
Click the **Header Details** link to adjust the Receipt Date is required.

### Step 25
Click the **Choose a date button** to change the Receipt Date.

#### Receipt Date

Enter a date by one of the following methods:

1. To view the calendar and select the date, click the **Calendar** icon next to the **Receipt Date** field. Once you have selected the month and year (if necessary), click on the day to select it.

2. Enter the date (mm/dd/yy) – PeopleSoft requires that **6 digits** be entered, but the user **does not** have to type the slashes (e.g. 120115). The slashes will populate once the user presses the **Refresh** button or moves to another page (this includes actually navigating to another page or clicking the search button on another field on the same page, since searching on a field actually brings you to another page).

### Step 26
Click the date the items were physically received.

Click the desired date.

### Step 27
**Bill of Lading Field**

The Bill of Lading field is a free-form text field. Therefore, it may contain numbers and/or letters. The user may enter any number that he/she wishes to attach to the **Receipt** (e.g. Bill of Lading number or Packing Slip number, etc.) into the Bill of Lading field. However, the number entered into the Bill of Lading field can be used to retrieve the Receipt entered into PeopleSoft, if needed.

**NOTE:** The Packing Slip field is not used since it does not have a search feature (i.e. the Packing Slip field will not appear in the Search page when attempting to retrieve Receipts entered into the PeopleSoft system).

### Step 28
Enter the desired information into the **Bill of Lading** field. Enter "**337425**".
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>29.</td>
<td>Click the <strong>OK</strong> button.</td>
</tr>
<tr>
<td>30.</td>
<td><strong>NOTE:</strong> When receiving a Complete Shipment, the quantity will default into the <strong>Receipt Qty</strong> field. The user can override the quantity, if needed. Enter the desired information into the <strong>Receipt Qty</strong> field. Enter &quot;60&quot;.</td>
</tr>
<tr>
<td>31.</td>
<td>Click the <strong>Save</strong> button.</td>
</tr>
</tbody>
</table>
| 32.  | **A Message** displays when the user attempts to:  
1. Receive **more** than the quantity listed on the PO Line and the over-shipment is in **excess** of Louisiana State acceptable overage of **10%**;  
2. Receive the item **more than** once (e.g. if a partial shipment of the item was previously entered and the Receiver attempts to enter more than the remaining balance).  
**NOTE:** When there is an over shipment, if possible, the item(s) should be returned. See the "Reject (Return) an Item in PeopleSoft" topic for detailed instructions on how to reject (return) an item in PeopleSoft. |
| 33.  | If the over-shipped item is **needed**, the user should refer to the information provided below to determine how to proceed with receiving the over-shipped item into the PeopleSoft system.  
Under Louisiana State Law, the user **may accept** up to **10%** **over** the total cost of the PO, without the necessity of re-bidding the item. However, a **Change Order** must be issued by Purchasing **before** the over-shipped item is received into PeopleSoft. |
| 34.  | If the overage is **not above** the 10% acceptable limit, **the warning message will not be displayed**. Even if the warning message does not display due to overage being under the 10% acceptable limit, **and** the user is able to receive the over-shipped item in PeopleSoft, **Accounts Payable** will have problems matching and paying the **Invoice** until further action is taken. This will cause a **delay** in the payment of the **Invoice**. **Therefore, the user must not attempt to receive any over-shipment in PeopleSoft, prior to contacting his/her Buyer for further assistance.** |
Procedure for Accepting an Over-Shipement of an Inventory Item

The following Procedure will be used for any over-shipped item that the user intends to accept.

For POs $1,000.00 and under only:
If the overage does not cause the total order to go above $1,000.00 (including shipping, handling and any other relevant charges), the user may accept the overage after completing the following steps.
1. Contact the Buyer via e-mail or telephone to request the Buyer issue a Change Order.
2. Once the Change Order has been issued, the user may receive the item in PeopleSoft.
3. If the user is receiving multiple PO Line items, the over-shipped item(s) should be bypassed until the Change Order has been issued.

For All Other POs:
1. The user must contact the Buyer via e-mail or telephone to request the Buyer issue a Change Order. The Buyer will review the over-shipment and determine whether acceptance of it would violate the Louisiana State Procurement Code. If it does not violate the Procurement Code, a Change Order will be issued.
2. Once the Change Order has been issued, the user may receive the item in PeopleSoft.
3. If the user is receiving multiple PO Line items, the over-shipped item(s) should be bypassed until the Change Order has been issued.

</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Click the <strong>Main Menu</strong> button.</td>
</tr>
<tr>
<td>2.</td>
<td>From the <strong>Main Menu</strong> link:</td>
</tr>
<tr>
<td></td>
<td>Click the <strong>Purchasing</strong> option.</td>
</tr>
<tr>
<td>3.</td>
<td>Click the <strong>Receipts</strong> option.</td>
</tr>
<tr>
<td>4.</td>
<td>Click the <strong>Add/Update Receipts</strong> option.</td>
</tr>
</tbody>
</table>
### Step 5. Business Unit

Your Business Unit should default into the Business Unit field when working in Production. If it does not default, enter it or select it by clicking the **Lookup Business Unit** button to the right of the Business Unit field. Then contact your Purchasing Superuser to ensure that the Business Unit defaults into this field for future receipts.

*See below for a list of Business Units.*

#### NOTE: The following is a list of the Business Units that should be entered into the Business Unit field, depending on the facility at which the end-user is employed.

- **AMCNO**: Academic Medical Center of New Orleans
- **LAKMC**: Lallie A. Kemp Medical Center
- **LSUNO**: Louisiana State University New Orleans
- **LSUSH**: Louisiana State University Shreveport

<table>

<tr>
<td>Step</td>
<td>Action</td>
</tr>
<tr>
<td>------</td>
<td>--------</td>
</tr>
</tbody>
</table>
| 11.  | **Receipt Qty Option**  
      | If this is a Receipt for a **Partial Shipment:**  
      | **Check:** Retrieve Open PO Schedules and  
      | **Select:** No Order Qty |
| 12.  | **Receipt Qty Option** (continued)  
      | If this is a Receipt for a **Complete Shipment:**  
      | **Uncheck:** Retrieve Open PO Schedules and  
      | **Select:** Ordered Qty |
|      | **NOTE:** It is not recommended that PO Remaining Qty be selected. |
| 13.  | In this example, you will receive a **Partial Shipment**. Therefore, you will adjust the **Receipt Options** as shown in the steps that follows. |
| 14.  | Occasionally, the user may attempt to receive more than the quantity listed on the PO (i.e., over shipments) or to receive the item more than once (e.g., if a Partial Shipment of the item was previously entered and the Receiver attempts to enter more than the remaining balance).  
      | When preparing to enter a Receipt from an Invoice, Packing Slip, Bill of Lading, etc., the user must first view the **PO Qty** and the **Prior Receipt** quantity for each PO Line before attempting to receive the PO Line in PeopleSoft. This will prevent the user from inadvertently receiving an over shipment. |
| 15.  | If a PO Line is found to be an over shipment, the user should not receive the PO Line in question in PeopleSoft. The user must contact their Buyer via email or telephone for further assistance.  
      | **See the "Receipt of Over Shipment for a Non-Inventory Item" topic for further details on handling over shipments.** |
| 16.  | Clicking the **Select All** link allows the user to select all of the PO lines at once, rather than checking each line received, one at a time.  
      | Clicking the **Clear All** link clears all lines checked. |
| 17.  | **NOTE:** If this is a Partial Shipment in which most of the PO line items have been received on one shipment, you may opt to select all of the PO lines, at one time, by clicking the **Select All** link. However, in this case, before proceeding to the next step, it is imperative that the user confirm that only the lines actually received from the supplier (and are not an over shipped item) are checked, as shown in this example. If the user enters a receipt for an item in PeopleSoft without actually receiving the item from the supplier, the following will occur:  
      | 1. **You will be typing up a portion of your Department’s budget, and**  
<pre><code>  | 2. **At the end of the Fiscal Year, you will be accountable for any items received in PeopleSoft during the year which does not have an Invoice.** |
</code></pre>
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>

</thead>
<tbody>
<tr>
<td>18.</td>
<td>Click the <strong>Line 1 Sel</strong> option.</td>
</tr>
<tr>
<td>19.</td>
<td>Click the <strong>Line 3 Sel</strong> option.</td>
</tr>
<tr>
<td>20.</td>
<td>Click the <strong>OK</strong> button.</td>
</tr>
</tbody>
</table>
| 21.  | The **Maintain Receipts** page displays.  

**NOTE:** The current date will default in the page, but can be changed, if required by clicking the **Header Details** link, as shown in the steps that follow. The user will enter the date that the item(s) is actually received - not the date it is being entered into the PeopleSoft system. |
| 22.  | Users should receive the item in PeopleSoft upon receipt, or as soon as possible, since the Supplier usually mails the invoice on the same date the item is shipped. The user should receive the item in PeopleSoft from the packing slip, bill of lading, etc. (if any of these documents are received with the item). The user **should not** await receipt of the invoice to enter the Receipt in PeopleSoft, if any of the other documents listed above are received with the item from the Supplier. |
| 23.  | Verify that the **Interface Receipt** option is unchecked. If it is not unchecked, click the checkbox to de-select it.  

**NOTE:** This receipt process will be scheduled to run periodically throughout the day. |
| 24.  | Click the **Header Details** link. |
| 25.  | Click the **Choose a date** button. |
| 26.  | Click the desired date. |
| 27.  | **Bill of Lading Field**  

The Bill of Lading field is a free-form text field. Therefore, it may contain numbers and/or letters. The user may enter any number that he/she wishes to attach to the Receipt (e.g. Bill of Lading number or Packing Slip number, etc.) into the Bill of Lading field. However, the number entered into the Bill of Lading field can be used to retrieve the Receipt entered into PeopleSoft, if needed.  

**NOTE:** The Packing Slip field is not used since it does not have a search feature (i.e. the Packing Slip field will not appear in the Search page when attempting to retrieve Receipts entered into the PeopleSoft system). |
<p>| 28.  | Enter the desired information into the <strong>Bill of Lading</strong> field. Enter &quot;566421&quot;. |</p>

| 20.  | Click the **Select All** link. |
| 21.  | Click the **OK** button. |
| 22.  | The **Maintain Receipts** page displays.  
*NOTE:* The current date will default in the page, but can be changed, if required by clicking the **Header Details** link. The user will enter the date that the item(s) is actually received - not the date it is being entered into the PeopleSoft system. |
| 23.  | Users should receive the item in PeopleSoft upon receipt, or as soon as possible, since the Supplier usually mails the invoice on the same date the item is shipped. The user should receive the item in PeopleSoft from the packing slip, bill of lading, etc. (if any of these documents are received with the item). The user **should not** await receipt of the invoice to enter the Receipt in PeopleSoft, if any of the other documents listed above are received with the item from the Supplier. |
| 24.  | Verify that the **Interface Receipt** option is unchecked. If it is not unchecked, click the checkbox to de-select it.  
*NOTE:* *This receipt process will be scheduled to run periodically throughout the day.* |
| 25.  | Click the **Header Details** link to adjust the Receipt data. |
### Step 26

Enter the desired information into the **Receipt Date** field. Enter "040116".

**Receipt Date**

Enter a date by one of the following methods:

1. To view the calendar and select the date, click the **Calendar** icon next to the **Receipt Date** field. Once you have selected the month and year (if necessary), click on the day to select it.

2. Enter the date (mm/dd/yy) – PeopleSoft requires that **6 digits** be entered, but the user **does not** have to type the slashes (e.g. 120115). The slashes will populate once the user presses the **Refresh** button or moves to another page (this includes actually navigating to another page or clicking the search button on another field on the same page, since searching on a field actually brings you to another page).

### Step 27

**Bill of Lading Field**

The Bill of Lading field is a free-form text field. Therefore, it may contain numbers and/or letters. The user may enter any number that he/she wishes to attach to the **Receipt** (e.g. Bill of Lading number or Packing Slip number, etc.) into the Bill of Lading field. However, the number entered into the Bill of Lading field can be used to retrieve the Receipt entered into PeopleSoft, if needed.

**NOTE:** The **Packing Slip field** is **not used since it does not have a search feature** (i.e. the Packing Slip field will not appear in the Search page when attempting to retrieve Receipts entered into the PeopleSoft system).

### Step 28

Enter the desired information into the **Bill of Lading** field. Enter "12125".

### Step 29

Click the **OK** button.

### Step 30

Click the **Save** button to save the receipt.

**NOTE:** To receive additional line item(s) on the PO, repeat the previous step.

### Step 31

The system has assigned a Receipt ID. You should record the Receipt Number at this time for future reference of this PO.

Record your **Receipt Number:** _______________

<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 31.  | A **Message** displays when the user attempts to:  
1. Receive **more** than the quantity listed on the PO Line and the over-shipment is in **excess** of Louisiana State acceptable overage of **10%**;  
2. Receive the item **more than** once (e.g. if a partial shipment of the item was previously entered and the Receiver attempts to enter more than the remaining balance).  

**NOTE:** When there is an over shipment, if possible, the item(s) should be returned. See the "Reject (Return) an Item in PeopleSoft" topic for detailed instructions on how to reject (return) an item in PeopleSoft. |
| 32.  | If the over-shipped item is **needed**, the user should refer to the information provided below to determine how to proceed with receiving the over-shipped item into the PeopleSoft system.  
Under Louisiana State Law, the user **may accept** up to **10% over** the total cost of the PO, without the necessity of re-bidding the item. However, a **Change Order** must be issued by Purchasing **before** the over-shipped item is received into PeopleSoft. |
| 33.  | If the overage is **not above** the 10% acceptable limit, the **warning message will not be displayed**. Even if the warning message does not display due to overage being under the 10% acceptable limit, **and** the user is able to receive the over-shipped item in PeopleSoft, **Accounts Payable** will have problems matching and paying the **Invoice** until further action is taken. This will cause a **delay** in the payment of the **Invoice**. **Therefore, the user must not attempt to receive any over-shipment in PeopleSoft, prior to contacting his/her Buyer for further assistance.** |
Procedure for Accepting an Over-Shipmen of an Inventory Item

The following Procedure will be used for any over-shipped item that the user intends to accept.

For POs $1,000.00 and under only:
If the overage does not cause the total order to go above $1,000.00 (including shipping, handling and any other relevant charges), the user may accept the overage after completing the following steps.
1. Contact the Buyer via e-mail or telephone to request the Buyer issue a Change Order.
2. Once the Change Order has been issued, the user may Receive the item in PeopleSoft.
3. If the user is Receiving multiple PO Line items, the over-shipped item(s) should be bypassed until the Change Order has been issued.

For All Other POs:
1. The user must contact the Buyer via e-mail or telephone to request the Buyer issue a Change Order. The Buyer will review the over-shipment and determine whether acceptance of it would violate the Louisiana State Procurement Code. If it does not violate the Procurement Code, a Change Order will be issued.
2. Once the Change Order has been issued, the user may Receive the item in PeopleSoft.
3. If the user is Receiving multiple PO Line items, the over-shipped item(s) should be bypassed until the Change Order has been issued.

<td>Click the <strong>Find an Existing Value</strong> tab.</td>
</tr>
</tbody>
</table>
### Step 6: Business Unit

Your Business Unit should default into the Business Unit field when working in Production. If the Business Unit does not default, enter it or select it by clicking the **Lookup Business Unit** button to the right of the Business Unit field. Then contact your Purchasing Superuser to ensure that your Business Unit defaults for future receipts. *See below for a list of Business Units.*

**NOTE:** The following is a list of the Business Units that should be entered into the Business Unit field, depending on the facility at which the end-user is employed.

AMCNO: Academic Medical Center of New Orleans  
LAKMC: Lallie A. Kemp Medical Center  
LSUNO: Louisiana State University New Orleans  
LSUSH: Louisiana State University Shreveport

### Step 7: Action

You may enter or select one of the following search criteria to retrieve the Receipt:

- **Receipt (ID) Number** - The Receipt Number is generated after entering and saving the receipt. When working in Production, this is the number that you will record after entering a Receipt.  
  
  *See "Entering a Receipt for an Inventory Item" and "Entering a Receipt for a Non-InVENTORY Item" topics for details on obtaining a Receipt Number.*

- **Bill of Lading:** The number entered in the Bill of Lading field when you entered the Receipt; or

- **PO (ID) Number**

### Step 8: Action

**Caution:** Searching only by Ship To Location, Supplier ID, or Received Date could result in a large list of receipts that takes a long time to run.

### Step 9: Action

Enter the desired information into the **Receipt Number** field. Enter "0236900".

### Step 10: Action

Click the **Search** button.

### Step 11: Action

**NOTE:** The Receipt Status = Fully Received.

### Step 12: Action

Click the **Line 1 Cancel** button.

### Step 13: Action

If the line can be canceled, a message will display advising that canceling a row cannot be reversed. If the line has been paid by Account Payable and cannot be canceled, a message will display advising that the line has been matched.
